TOP SECRET Official Transcript of the U.S. Army Air Force Roswell Army Air Field, 509th Bomb Group SUBJECT: ALIEN INTERVIEW, 9. 7. 1947 "QUESTION - "Are you injured?" ANSWER - NO QUESTION - "What medical assistance do you require?" ANSWER - NONE QUESTION - "Do need food or water or other sustenance?" ANSWER - NO 29 QUESTION - "Do you have any special environmental needs, such as air temperature, atmospheric chemical content, air pressure, or waste elimination?" ANSWER - NO. I AM NOT A BIOLOGICAL BEING. QUESTION - "Does your body or space craft carry any germs or contamination that may be harmful to humans or other Earth life forms?" ANSWER - NO GERMS IN SPACE. QUESTION - "Does your government know you are here?" ANSWER - NOT AT THIS TIME QUESTION - "Are others of your kind going to come looking for you?" ANSWER - YES QUESTION - "What is the weapons capability of your people?" ANSWER - VERY DESTRUCTIVE. I did not understand the exact nature of the kind of arms or weapons that they might have, but I did not feel that there was any malevolent intention in her reply, just a statement of fact. QUESTION - "Why did your space craft crash?" ANSWER - 30 IT WAS STRUCK BY AN ELECTRICAL DISCHARGE FROM THE ATMOSPHERE WHICH CAUSED US TO LOSE CONTROL. QUESTION - "Why was your space craft in this area?" ANSWER - INVESTIGATION OF "BURNING CLOUDS" / RADIATION / EXPLOSIONS 29 (Footnote) QUESTION - "How does your space craft fly?" ANSWER - IT IS CONTROLLED THROUGH "MIND". RESPONDS TO "THOUGHT COMMANDS". "Mind" or "thought command" are the only English language words I can think of to describe the thought. Their bodies, and I think, the space craft, are connected directly to them through some kind of electrical "nervous system" that they control with their own thoughts. QUESTION - "How do your people communicate with each other?" ANSWER - THROUGH MIND /THOUGHT. The words "mind" and "thought" combined together are the closest English language words I can think of to describe the idea at this time. However, it was very obvious to me that they communicate directly from the mind, just as she is communicating with me. QUESTION - "Do you have a written language or symbols for communication?" ANSWER - YES QUESTION - "What planet are you from?" ANSWER - 31 THE HOME / BIRTHPLACE WORLD OF THE DOMAIN Since I am not an astronomer, I have no way of thinking in terms of stars, galaxies, constellations and directions in space. The impression I received was of a planet in the center of a huge cluster of galaxies that is to her like "home", or "birthplace". The word "domain" is the closest word I can think of to describe her concept, images and thoughts about where she is from. It could as easily be called the "territory" or the "realm". However, I am sure that it was not just a planet or a solar system or a cluster of stars, but an enormous number of galaxies! QUESTION - "Will your government send representatives to meet with our leaders?" ANSWER - NO QUESTION - "What are your intentions concerning Earth?" ANSWER - PRESERVE / PROTECT PROPERTY OF THE DOMAIN QUESTION - "What have you learned about Earth governments and military installations?" ANSWER - POOR / SMALL. DESTROY PLANET. QUESTION - "Why haven't your people made your existence known to the people of Earth?" ANSWER - WATCH / OBSERVE. NO CONTACT. I got the impression that contact with people on

Earth was not permitted, but I could not think of a word or idea that communicated the impression I got exactly. They are just observing us. 32 QUESTION - "Have your people visited Earth’s previously?" ANSWER - PERIODIC / REPEATING OBSERVATIONS. QUESTION - "How long have you known about Earth?" ANSWER - LONG BEFORE HUMANS. I am not sure if the word "prehistoric" would be more accurate, but it was definitely a very long period of time before human beings evolved. QUESTION - "What do you know about the history of civilization on Earth?" ANSWER - SMALL INTEREST / ATTENTION. SMALL TIME. The answer to this question seemed very vague to me. However, I perceived that her interest in Earth history is not very strong or that she did not pay much attention to it. Or, maybe, ... I don't know. I didn't really get an answer to the question. QUESTION - "Can you describe your home world to us?" ANSWER - PLACE OF CIVILIZATION / CULTURE / HISTORY. LARGE PLANET. WEALTH / RESOURCES ALWAYS. ORDER. POWER. KNOWLEDGE / WISDOM. TWO STARS. THREE MOONS. QUESTION - "What is the state of development of your civilization?" ANSWER - ANCIENT. TRILLIONS OF YEARS. ALWAYS. ABOVE ALL OTHERS. PLAN. SCHEDULE. PROGRESS. WIN. HIGH GOALS / IDEAS. 33 I use the number "trillions" 30 (Footnote) because I am sure that the meaning was a number larger than many billions. The idea of the length of time she communicated is beyond me. It's really closer to the idea of "infinity" in terms of Earth years. QUESTION - "Do you believe in God?" ANSWER - WE THINK. IT IS. MAKE IT CONTINUE. ALWAYS. I am sure that the alien being does not understand the concept of "god" or "worship" as we do. I assume that the people in her civilization were all atheists. My impression was that they think very highly of themselves and are very prideful indeed! QUESTION - "What type of society do you have?" ANSWER - ORDER. POWER. FUTURE ALWAYS. CONTROL. GROW. These are the closest words I could use to describe the idea she had about her own society or civilization. Her "emotion" when communicating her response to this question became very intense, very bright and emphatic! Her thought was filled with an emotion that gave me a feeling of jubilation or joy. But, it made me very nervous also. QUESTION - "Are there other intelligent life forms besides yourself in the universe?" ANSWER - EVERYWHERE. WE ARE GREATEST / HIGHEST OF ALL. Due to her small stature, I am sure that she did not mean "tallest" or "biggest". Again, her prideful "nature" showed through in the feeling I received from her."

"QUESTION - "Why have you stopped communicating?" ANSWER - NO STOP. OTHERS. HIDDEN / COVERED. SECRET FEAR. The alien can not communicate with them because they were afraid of her, or do not trust her. And, it is clear to me that the alien is very aware that some people have secret intentions toward her and are hiding their real thoughts. It is equally obvious to me that the alien does not have even a tiny bit of fear of us, or anything else, for that matter!"

"QUESTION - Can you read or write any Earth languages? ANSWER - NO. QUESTION - Do you understand numbers or mathematics? ANSWER - YES. I AM OFFICER / PILOT / ENGINEER QUESTION - Can you write or draw symbols or pictures that we may be

able to translate into our own language? ANSWER - UNCERTAIN QUESTION - Are there any other signs or means of communication you can use to help us understand your thoughts more clearly? ANSWER - NO." 39

"QUESTION - Can you show us on a map of the stars which is the star of your home planet? 36 (Footnote) ANSWER - NO. This is not because she does not know the directions from Earth to her home planet. She was unwilling to reveal the location. It was also due to the fact that the star system of her home planet does not exist on any star map on Earth. It is too far away. QUESTION - How long will it take your people to locate you here? ANSWER - UNKNOWN. QUESTION - How long would it take your people to travel here to rescue you? ANSWER - MINUTES OR HOURS. 40 QUESTION - How can we make them understand that we do not intend to harm you? ANSWER - INTENTIONS ARE CLEAR. SEE IN YOUR MIND / IMAGES / FEELINGS. QUESTION - If you are not a biological entity, why do you refer to yourself as feminine? ANSWER - I AM A CREATOR. MOTHER. SOURCE."

"QUESTION - "What assurance or proof do you require from us that will make you feel safe enough to answer our questions." ANSWER - ONLY SHE SPEAKS. ONLY SHE HEARS. ONLY SHE QUESTIONS. NO OTHERS. MUST LEARN / KNOW / UNDERSTAND."

"What would you like to say, Airl?", I asked. "I have been a part of the Domain Expeditionary Force in this sector of space for several thousand years. However, I have not personally had intimate contact with beings on Earth since 5,965 BCE. It is not my primary function to interact with inhabitants of planets within The Domain. I am an Officer, Pilot and Engineer, with many duties to perform. Nonetheless, although I am fluent in 347 other languages within The Domain, I have not been exposed to your English language. The last Earth language with which I was conversant was the Sanskrit language of the Vedic Hymns. 50 (Footnote) At that time I was a member of a mission sent to investigate the loss of a Domain base located in the Himalaya Mountains. An entire battalion of officers, pilots, communications and administrative personnel disappeared and the base destroyed. Several million years ago I was trained and served as an Investigation, Data Evaluation and Program Development Officer for The Domain. Because I was experienced in that technology, I was sent to Earth as part of the search team. One of my duties involved interrogation of the human population that inhabited the adjoining area at that time. 51 (Footnote) Many of the people in that region reported sighting "vimanas" or space craft in the area. 52 (Footnote) Following the logical extension of evidence, testimony, observation, as well as the absence of certain evidence, I led my team to the discovery that there were still "Old Empire" ships and well-hidden "Old Empire" installations in this solar system of which we had been completely unaware. 49 You and I were unable to communicate in your language because I, personally, have not been exposed to your language. However, now that I have scanned the books and material you provided me this data has been relayed to our space station in this region and processed by our

communications officer through our computers. It has been translated into my own language and relayed back to me in a context that I can think with. I have also received additional information from the files stored in our computers about the English language and Domain records concerning Earth civilization." 53 (Footnote) "Now I am prepared to give you certain information that I feel will be of great value to you. I will tell you the truth. Although truth is relative to all other truth, I wish to share with you as honestly and accurately as possible, truth as I see it, within the boundaries of my integrity to myself, to my race and without violating my obligations to the organization I serve and have sworn to uphold and protect". "OK", I thought. "Will you answer questions from the gallery now?" "No. I will not answer questions. I will provide information to you that I think will be beneficial to the well-being of the immortal spiritual beings who comprise humanity, and that will foster the survival of all the myriad life forms and the environment of Earth, as it is a part of my mission to ensure the preservation of Earth. "Personally, it is my conviction that all sentient beings are immortal spiritual beings. This includes human beings. For the sake of accuracy and simplicity I will use a made-up word: "IS-BE". Because the primary nature of an immortal being is that they live in a timeless state of "is", and the only reason for their existence is that they decide to "be". No matter how lowly their station in a society, every IS-BE deserves the respect and treatment that I myself would like to receive from others. Each person on Earth continues to be an IS-BE whether they are aware of the fact or not." 5

"Airl told me her reasons for coming to Earth and for being in the area of the 509th Bomber Squadron. She was sent by her superior officers to investigate the explosions of nuclear weapons which have been tested in New Mexico. Her superiors ordered her to gather information from the atmosphere that could be used to determine the extent of radiation and potential harm this might cause to the environment. During her mission, the space craft was struck by a lighting 55 (Footnote), which caused her to lose control and crash. The space craft is operated by IS-BEs who use "doll bodies" in much the same way that an actor wears a mask and costume. It is a like a mechanical tool through which to operate in the physical world. She, as well as all of the other IS-BEs of the officer class and their superiors, inhabit these "doll bodies" when they are on duty in space. When they are not on duty, they "leave" the body and operate, think, communicate, travel, and exist without the use of a body. The bodies are constructed of synthetic materials, including a very sensitive electrical nervous system, to which each IS-BE adjusts themselves or "tune in" to an electronic wavelength 56 (Footnote) that is matched uniquely to the wavelength or frequency emitted by each IS-BE. Each IS-BE is capable of creating a unique wave frequency which identifies them, much like a radio signal frequency. This serves, in part, as identification like a finger print. The doll body acts like a radio receiver for the IS-BE. No two frequencies or doll bodies are exactly the same. The bodies of each IS-BE crew member are likewise tuned into and connected to the "nervous system" built into the space craft. The space craft is built in much the same way as the doll body. It is adjusted specifically to the

frequency of each IS-BE crew member. Therefore, the craft can be operated by the "thoughts" or energy emitted by the IS-BE. It is really a very simple, direct control system. So, there are no complicated controls or navigation equipment on board the space craft. They operate as an extension of the IS-BE. 52 When the lightning bolt struck the space craft this caused a short circuit and consequently "disconnected" them from the control of the ship momentarily which resulted in the crash. Airl was, and still is, an officer, pilot and engineer in an expeditionary force which is part of a space opera 57 (Footnote) civilization which refers to itself as "The Domain". This civilization controls a vast number of galaxies, stars, planets, moons and asteroids throughout an area of space that is approximately one-fourth of the entire physical universe! The continuing mission of her organization is to "Secure, control and expand the territory and resources of The Domain". Airl pointed out that their own activities were very similar in many ways to the European explorers who "discovered" and "claimed" the New World for The Holy Father, The Pope and for the kings of Spain, Portugal and later, Holland, England, France and so forth. Europe benefited from the property "acquired" from the native inhabitants. However, the native inhabitants were never consulted with or asked for their permission to become a part of the "domain" of European nations and the soldiers and priests they sent to acquire territory and wealth in order to advance their interests. Airl said she read in a history book that the Spanish king regretted the brutal treatment of the native inhabitants by his soldiers. He feared retribution from the gods he worshipped, as described in the various testaments of the Bible. He asked the Pope to prepare a statement called "The Requirement" 58 (Footnote) which was supposed to be read to each of the newly encountered native inhabitants. The king hoped that the statement, whether it was accepted or rejected by the natives, would absolve the King of all responsibility for the resulting slaughter and enslavement of these people. He used this statement as justification to confiscate their lands and possessions by his soldiers and the Pope's priests. Apparently, the Pope, personally, did not have any feelings of guilt or responsibility in the matter. Airl thought that such actions were those of a coward and that it is no surprise that the territory of Spain 53 was diminished so quickly. Only a few years later the king was dead and his empire had been assimilated by other nations. Airl said that this sort of behavior does not occur in The Domain. Their leaders assume full responsibility for the actions of The Domain, and would not denigrate themselves in this fashion. Nor do they fear any gods or have any regret for their actions. This idea reinforces my earlier suggestion that Airl and her people are probably atheists. In the case of the acquisition of Earth by The Domain, the rulers of The Domain have chosen not to openly reveal this intention to the "native inhabitants" of Earth until a later time when it may, or may not, suit their interests to reveal themselves. For the present time, it is not strategically necessary to make the presence of The Domain Expeditionary Force known to Mankind. In fact, until now, it has been very aggressively hidden, for reasons that will be revealed later. The asteroid belt near Earth is a very small, but important location for The Domain in this part of space. Actually, some of the objects in our solar system are very valuable for use as low-

gravity "space stations". They are interested primarily in the low gravity satellites in this solar system which consists mainly of the side of the moon facing away from Earth 59 (Footnote) and the asteroid belt, which was a planet that was destroyed billions of years ago, and to a lesser degree, Mars and Venus. Doom structures synthesized from gypsum 60 (Footnote) or underground bases covered by electromagnetic force screens 61 (Footnote) are easily constructed to house the Domain forces. Once an area of space is acquired by The Domain and becomes a part of the territory under its control, it is treated as the "property" of The Domain. The space station near the planet Earth is important only because it lay along a path of The Domain expansion route toward the center of the Milky Way galaxy and beyond. Of course, everyone in The Domain is aware of this -- except for the people of Earth."

"Before you can understand the subject of history, you must first understand the subject of time. Time is simply an arbitrary measurement of the motion of objects through space. Space is not linear. Space is determined by the point of view of an IS-BE when viewing a object. The distance between an IS-BE and the object being viewed is called "space". Objects, or energy masses, in space do not necessarily move in a linear fashion. In this universe, objects tend to move randomly or in a curving or cyclical pattern, or as determined by agreed upon rules. History is not only a linear record of events, as many authors of Earth history books imply, because it is not a string that can be stretched out and marked like a measuring tool. History is a subjective observation of the movement of objects through space, recorded from the point of view of a survivor, rather than of those who succumbed. Events occur interactively and concurrently, just as the biological body has a heart that pumps blood, while the lungs provide oxygen to the cells, which reproduce, using energy from the sun and chemicals from plants, at the same time as the liver strains toxic wastes from the blood, and eliminates them through the bladder and the bowels. All of these interactions are concurrent and simultaneous. Although time runs consecutively, events do not happen in an independent, linear stream. In order to view and understand the history or reality of the past, one must view all events as part of an interactive whole. Time can also be sensed as a vibration which is uniform throughout the entire physical universe. 56 Airl explained that IS-BEs have been around since before the beginning of the universe. The reason they are called "immortal", is because a "spirit" is not born and cannot die, but exists in a personally postulated perception of "is - will be". She was careful to explain that every spirit is not the same. Each is completely unique in identity, power, awareness and ability. The difference between an IS-BE like Airl and most of the IS-BEs inhabiting bodies on Earth, is that Airl can enter and depart from her "doll" at will. She can perceive at selective depths through matter. Airl and other officers of The Domain can communicate telepathically. Since an IS-BE is not a physical universe entity it has no location in space or time. An IS-BE is literally, "immaterial". They can span great distances of space instantly. They can experience sensations, more intensely than a biological body, without the use of physical sensory

mechanisms. An IS-BE can exclude pain from their perception. Airl can also remember her "identity", so to speak, all the way back into the dim mists of time, for trillions of years! She says that the existing collection of suns in this immediate vicinity of the universe have been burning for the last 200 trillion years. The age of the physical universe is nearly infinitely old, but probably at least four quadrillion 62 (Footnote) years since its earliest beginnings. Time is a difficult factor to measure as it depends on the subjective memory of IS-BEs and there has been no uniform record of events throughout the physical universe since it began. As on Earth, there are many different time measurement systems, defined by various cultures, which use cycles of motion, and points of origin to establish age and duration. 63 (Footnote) The physical universe itself is formed from the convergence and amalgamation of many other individual universes 64 (Footnote), each one of which were created by an IS-BE or group of IS-BEs. The collision of these illusory universes commingled and coalesced and were solidified to form a mutually created universe. Because it is agreed that energy and forms can be created, but 57 not destroyed, 65 (Footnote) this creative process has continued to form an ever-expanding universe of nearly infinite physical proportions. Before the formation of the physical universe there was a vast period during which universes were not solid, but wholly illusionary. You might say that the universe was a universe of magical illusions which were made to appear and vanish at the will of the magician. In every case, the "magician" was one or more IS-BEs. Many IS BEs on Earth can still recall vague images from that period. Tales of magic, sorcery and enchantment, fairy tales and mythology speak of such things, 66 (Footnote) although in very crude terms. Each IS-BE entered into the physical universe when they lost their own, "home" universe. That is, when an IS BE's "home" universe was overwhelmed by the physical universe, or when the IS-BE joined with other IS-BEs to create or conquer the physical universe. On Earth, the ability to determine when an IS-BE entered the physical universe is difficult for two reasons: 1) the memory of IS-BEs on Earth have been erased, and 2) IS-BEs arrival or invasion into the physical universe took place at different times, some 60 trillion years ago, and others only 3 trillion. Every once in a short while, a few million years, an area or planet will be taken over by another group of IS-BEs entering into the area. Sometimes they will capture other IS-BEs as slaves. 67 (Footnote) They will be forced to inhabit bodies to perform menial, or manual work -- especially mining mineral ores on heavy-gravity planets, such as Earth. Airl says that she has been a member of The Domain Expeditionary Force for more than 625 million years, when she became a pilot for a biological survey mission which included occasional visits to Earth. She can remember her entire career there, and for a very long time before that. She told me that Earth scientists do not have an accurate measuring system to gauge the age of matter. They assume that because certain types of materials seem to deteriorate rather quickly, such as organic or 58 carbon-based matter, that there is a deterioration of matter. It is not accurate to measure the age of stone, based on the measurement of the age of wood or bone. This is a fundamental error. Factually, matter does not deteriorate. It cannot be destroyed. Matter may be altered in form, but it is never truly

destroyed. The Domain has conducted a periodic survey of the galaxies in this sector of the universe since it developed space travel technologies about 80 trillion years ago. A review of changes in the complexion of Earth reveal that mountain ranges rise and fall, continents change location, the poles of the planet shift, ice caps come and go, oceans appear and disappear, rivers, valleys and canyons change. In all cases, the matter is the same. It is always the same sand. Every form and substance is made of the same basic material, which never deteriorates.

"Airl described the abilities of an IS-BE officer of The Domain to me, and she demonstrated one to me when she contacted -- telepathically -- a communications officer of The Domain who is stationed in the asteroid belt. 68 (Footnote) The asteroid belt is composed of thousands of broken up pieces of a planet that once existed between Mars and Jupiter. It serves as a good low-gravity jumping off point for incoming space craft traveling toward the center of our galaxy. She requested that this officer consult information stored in the "files" of The Domain, concerning the history of Earth. She asked the communications officer to "feed" this information to Airl. The communications officer immediately complied with the request. Based on 59 the information stored in the files of The Domain, Airl was able to give me a brief overview or "history lesson". This is what Airl told me that The Domain had observed about the history of Earth: She told me that The Domain Expeditionary Force first entered into the Milky Way galaxy very recently -- only about 10,000 years ago. Their first action was to conquer the home planets of the "Old Empire" (this is not the official name, but a nick-name given to the conquered civilization by The Domain Forces) that served as the seat of central government for this galaxy, and other adjoining regions of space. These planets are located in the stars systems in the tail of the Big Dipper constellation. 69 (Footnote) She did not mention which stars, exactly. About 1,500 years later The Domain began the installation bases for their own forces along the path of invasion which leads toward the center of this galaxy and beyond. About 8,200 years ago The Domain forces set up a base on Earth in the Himalaya Mountains near the border of modern Pakistan and Afghanistan. This was a base for a battalion of The Domain Expeditionary Force, which included about 3,000 members. They set up a base under or inside the top of a mountain. The mountain top was drilled into and made hollow to create an area large enough to house the ships and personnel of that force. An electronic illusion of the mountain top was then created to hide the base by projecting a false image from inside the mountain against a "force screen". The ships could then enter and exit through the force screen, yet remain unseen by homo sapiens. Shortly after they settled there the base was surprised by an attack from a remnant of the military forces of the "Old Empire". Unbeknownst to The Domain, a hidden, underground base on Mars, operated by the "Old Empire", had existed for a very long time. The Domain base was wiped out by a military attack from the Mars base and the IS-BEs of The Domain Expeditionary Force were captured. You can imagine that The Domain was very upset about losing such a large force of officers and crew, so they 60 sent other crews to Earth to look for them. Those crews were also

attacked. The captured IS-BEs from The Domain Forces were handled in the same fashion as all other IS BEs who have been sent to Earth. They were each given amnesia, had their memories replaced with false pictures and hypnotic commands and sent to Earth to inhabit biological bodies. They are still a part of the human population today. After a very persistent and extensive investigation into the loss of their crews, The Domain discovered that "Old Empire" has been operating a very extensive, and very carefully hidden, base of operations in this part of the galaxy for millions of years. No one knows exactly how long. Eventually, the space craft of the "Old Empire" forces and The Domain engaged each other in open combat in the space of the solar system. According to Airl, there was a running battle between the "Old Empire" forces and The Domain until about 1235 AD, when The Domain forces finally destroyed the last of the space craft of the "Old Empire" force in this area. The Domain Expeditionary Force lost many of its own ships in this area during that time also. About 1,000 years later the "Old Empire" base was discovered by accident in the spring of 1914 AD. The discovery was made when the body of the Archduke of Austria, 70 (Footnote) was "taken over" by an officer of The Domain Expeditionary Force. This officer, who was stationed in the asteroid belt, was sent to Earth on a routine mission to gather reconnaissance. The purpose of this "take over" was to use the body as a "disguise" through which to infiltrate human society in order to gather information about current events on Earth. The officer, as an IS-BE, having greater power than the being inhabiting the body of the Archduke, simply "pushed" the being out and took over control of the body. However, this officer did not realize how much the Hapsburgs were hated by feuding factions in the country, so he was caught off guard when the body of the Archduke was assassinated by a Bosnian student. The officer, or IS-BE, was suddenly "knocked out" of the body when it was shot by the assassin. Disoriented, the IS-BE 61 inadvertently penetrated one of the "amnesia force screens" and was captured. Eventually The Domain discovered that a wide area of space is monitored by an "electronic force field" 71 (Footnote) which controls all of the IS-BEs in this end of the galaxy, including Earth. The electronic force screen is designed to detect IS-BEs and prevent them from leaving the area. If any IS-BE attempts to penetrate the force screen, it "captures" them in a kind of "electronic net". The result is that the captured IS-BE is subjected to a very severe "brainwashing" treatment which erases the memory of the IS-BE. This process uses a tremendous electrical shock, just like Earth psychiatrists use "electric shock therapy" to erase the memory and personality of a "patient" and to make them more "cooperative". 72 (Footnote) On Earth this "therapy" uses only a few hundred volts of electricity. However, the electrical voltage 73 (Footnote) used by the "Old Empire" operation against IS-BEs is on the order of magnitude of billions of volts! This tremendous shock completely wipes out all the memory of the IS-BE. The memory erasure is not just for one life or one body. It wipes out the all of the accumulated experiences of a nearly infinite past, as well as the identity of the IS-BE! The shock is intended to make it impossible for the IS BE to remember who they are, where they came from, their knowledge or skills, their memory of the past, and ability to function as a spiritual

entity. They are overwhelmed into becoming a mindless, robotic non entity. After the shock a series of post hypnotic suggestions 74 (Footnote) are used to install false memories, and a false time orientation in each IS-BE. This includes the command to "return" to the base after the body dies, so that the same kind of shock and hypnosis can be done again, and again, again -- forever. The hypnotic command also tells the "patient" to forget to remember. What The Domain learned from the experience of this officer is that the "Old Empire" has been using Earth as 62 a "prison planet" for a very long time -- exactly how long is unknown -- perhaps millions of years. So, when the body of the IS-BE dies they depart from the body. They are detected by the "force screen", they are captured and "ordered" by hypnotic command to "return to the light". The idea of "heaven" and the "afterlife" are part of the hypnotic suggestion -- a part of the treachery that makes the whole mechanism work. After the IS-BE has been shocked and hypnotized to erase the memory of the life just lived, the IS-BE is immediately "commanded", hypnotically, to "report" back to Earth, as though they were on a secret mission, to inhabit a new body. Each IS-BE is told that they have a special purpose for being on Earth. But, of course there is no purpose for being in a prison -- at least not for the prisoner. Any undesirable IS-BEs who are sentenced to Earth were classified as "untouchable" 75 (Footnote) by the "Old Empire". This included anyone that the "Old Empire" judged to be criminals who are too vicious to be reformed or subdued, as well as other criminals such as sexual perverts, or beings unwilling to do any productive work. An "untouchable" classification of IS-BEs also includes a wide variety of "political prisoners" 76 (Footnote). This includes IS-BEs who are considered to be noncompliant "free thinkers" or "revolutionaries" who make trouble for the governments of the various planets of the "Old Empire". Of course, anyone with a previous military record against the "Old Empire" is also shipped off to Earth. A list of "untouchables" include artists, painters, singers, musicians, writers, actors, and performers of every kind. For this reason Earth has more artists per capita than any other planet in the "Old Empire". "Untouchables" also include intellectuals, inventors and geniuses in almost every field. Since everything the "Old Empire" considers valuable has long since been invented or created over the last few trillion years, they have no further use for such beings. This includes skilled managers also, which are not needed in a society of obedient, robotic citizens. 63 Anyone who is not willing or able to submit to mindless economic, political and religious servitude as a tax paying worker in the class system of the "Old Empire" are "untouchable" and sentenced to receive memory wipe out and permanent imprisonment on Earth. The net result is that an IS-BE is unable to escape because they can't remember who they are, where they came from, where they are. They have been hypnotized to think they are someone, something, sometime, and somewhere other than were they really are. The Domain officer who was "assassinated" while in the body of Archduke of Austria was, likewise, captured by the "Old Empire" force. Because this particular officer was a high powered IS-BE, compared to most, he was taken away to a secret "Old Empire" base under the surface of the planet Mars. They put him into a special electronic prison cell and held him there. Fortunately, this Domain

officer was able to escape from the underground base after 27 years in captivity. When he escaped from the "Old Empire" base, he returned immediately to his own base in the asteroid belt. His commanding officer ordered that a battle cruiser be dispatched 77 (Footnote) to the coordinates of the base, provided by this officer, and to destroy that base completely. This "Old Empire" base was located a few hundred miles north of the equator on Mars in the Cydonia region. 78 (Footnote) Although the military base of the "Old Empire" was destroyed, unfortunately, much of the vast machinery of the IS-BE force screens, the electroshock / amnesia / hypnosis machinery continues to function in other undiscovered locations right up to the present moment. The main base or control center for this "mind control prison" 79 (Footnote) operation has never been found. So, the influences of this base, or bases, are still in effect. The Domain has observed that since the "Old Empire" space forces were destroyed there is no one left to actively prevent other planetary systems from bringing their own "untouchable" IS-BEs to Earth from all over this galaxy, and from other galaxies nearby. Therefore, Earth has become a universal dumping ground for this entire region of space. 64 This, in part, explains the very unusual mix of races, cultures, languages, moral codes, religious and political influences among the IS-BE population on Earth. The number and variety of heterogeneous societies on Earth are extremely unusual on a normal planet. Most "Sun Type 12, Class 7" planets are inhabited by only one humanoid body type or race, if any. In addition, most of the ancient civilizations of Earth, and many of the events of Earth have been heavily influenced by the hidden, hypnotic operation of the "Old Empire" base. So far, no one has figured out exactly where and how this operation is run, or by whom because it is so heavily protected by screens and traps. Furthermore, there has been no operation undertaken to seek out, discover and destroy the vast and ancient network of electronics machinery that create the IS-BE force screens at this end of the galaxy. Until this has been done, we are not able to prevent or interrupt the electric shock operation, hypnosis and remote thought control 80 (Footnote) of the "Old Empire" prison planet. Of course all of the crew members of The Domain Expeditionary Force now remain aware of this phenomena at all times while operating in this solar system space so as to prevent detection and the capture by "Old Empire" traps."

"The Domain Expeditionary Force has observed a resurgence in science and culture of the Western world since 1150 AD when the remaining remnants of the space fleet of the "Old Empire" in this solar system were destroyed. The influence of the remote control 81 (Footnote) hypnosis operation diminished slightly after that time, but still remains largely in force. Apparently a small amount of damage was done to the "Old Empire" remote mind control 82 (Footnote) operation which resulted in a small decrease in the power of this mechanism. As a result, some memory of technologies that IS-BEs already knew before they came to Earth started to be remembered. Thereafter the oppression of knowledge that is called the "Dark Ages" 83 (Footnote) in Europe began to diminish after that time. 84 Since then knowledge of the basic laws of physics (Footnote) and electricity 85 (Footnote) have

revolutionized Earth culture virtually overnight. The ability to remember technology by many of the geniuses in the IS-BE population of Earth was partially restored, when not so actively suppressed as it was before 1150 AD. Sir Isaac Newton, 86 (Footnote) is one of the best examples of this. In only a few decades he single-handedly reinvented several 66 major and fundamental scientific and mathematical disciplines. The men who "remembered" these sciences already knew them before they were sent to Earth. Ordinarily, no one would ever observe or discover as much about science and mathematics in a single life-time, or even in a few hundred life-times. These subjects have taken civilizations billions and billions of years to create! IS-BEs on Earth have only just begun to remember small fragments of all the technologies that exist throughout the universe. Theoretically, if the amnesia mechanisms being used against Earth could be broken entirely, IS BEs would regain all of their memory! Unfortunately, similar advances have not been seen in the humanities as the IS-BEs of Earth continue to behave very badly toward each other. This behavior, however, is heavily influenced by the "hypnotic commands" given to each IS-BE between lifetimes. 87 (Footnote) And, the very unusual combination of "inmates" on Earth - criminals, perverts, artists, revolutionaries and geniuses - is the cause of a very restive and tumultuous environment. The purpose of the prison planet is to keep IS-BEs on Earth, forever. Promoting ignorance, superstition, and war between IS-BEs helps to keep the prison population crippled and trapped behind "the wall" of electronic force screens. IS-BEs have been dumped on Earth from all over the galaxy, adjoining galaxies, and from planetary systems all over the "Old Empire", like Sirius, Aldebaron, the Pleiades, Orion, Draconis, and countless others. There are IS-BEs on Earth from unnamed races, civilizations, cultural backgrounds, and planetary environments. Each of the various IS-BE populations have their own languages, belief systems, moral values, religious beliefs, training and unknown and untold histories. These IS-BEs are mixed together with earlier inhabitants of Earth who came from another star system more than 400,000 years ago to establish the civilizations of Atlanta 88 (Footnote) and Lemuria 89 (Footnote). Those civilizations vanished beneath the tidal waves caused by a planetary "polar shift", 90 (Footnote) many thousands of years before 67 the current "prison" population started to arrive. Apparently, the IS-BEs from those star systems were the source of the original, oriental races of Earth, beginning in Australia. On the other hand, the civilizations set up on Earth by the "Old Empire" prison system were very different from the civilization of the "Old Empire" itself, which is an electronic space opera, atomic powered conglomeration of earlier civilizations that were conquered with nuclear weapons and colonized by IS-BEs from another galaxy. The bureaucracy that controlled the former "Old Empire" was from an ancient space opera society, run by a totalitarian 91 (Footnote) confederation of planetary governments, regulated by a brutal social, economic, and political hierarchy, 92 (Footnote) with a royal monarch as its figurehead. 93 (Footnote) This type of government emerges with regularity on planets where the citizens abandon personal responsibility for autonomous, self-regulation. They frequently lose their freedom to demented IS-BEs who suffer from an overwhelming paranoia that every

other IS-BE is their enemy who must be controlled or destroyed. Their closest friends and allies, whom they espouse to love and cherish, are literally "loved to death" by them. Because such IS-BEs exist, The Domain has learned that freedom must be won and maintained through eternal vigilance and the ability to use defensive force to maintain it. As a result, The Domain has already conquered the governing planet of the "Old Empire". The civilization of The Domain, although considerably younger and smaller in size, is already more powerful, better organized, and united by a egalitarian esprit de corps 94 (Footnote) never known in the history of the "Old Empire". The recently despoiled German totalitarian state on Earth was similar to the "Old Empire", but not nearly as brutal, and about ten thousand times less powerful. Many of the IS-BEs on Earth are here because they are violently opposed to totalitarian government, 95 (Footnote) or because they were so psychotically vicious that they could not be controlled by "Old Empire" government. 68 Consequently, the population of Earth is disproportionately comprised of a very high percentage of such beings. The conflicting cultural and ethical moral codes of the IS-BEs on Earth is unusual in the extreme. The Domain conquest of the central "Old Empire" planets was fought with electronic cannon. 96 (Footnote) The citizens of the planets forming the core of government for the "Old Empire" are a filthy, degraded, slave society of mindless, tax-paying workers, who practice cannibalism. Violent automotive race tracks and bloody, Roman circus type entertainments are their only amusements. Regardless of any reasonable justification we may have had for using atomic weapons to vanquish the planets of the "Old Empire", The Domain is careful not to ruin the resources of those planets by using weapons of crude, radioactive force. The current U.S. civilization is beginning to mimic some of the trappings of that civilization, especially in the design of airplanes, automobiles, ships, trains, and telephones. Likewise, buildings in the cities of Earth are thought to be "modern" or "futuristic" if their design resembles the architecture of the "Old Empire". The government of the "Old Empire", before being supplanted by The Domain, was comprised of beings who possessed a very craven intelligence, very much like the Axis powers 97 (Footnote) during your recent world war. Those beings manifested precisely the same behavior as the galactic government that exiled them to eternal imprisonment on Earth. They were a gruesome reminder of the ageless maxim that an IS-BE will often manifest the treatment they have received from others. Kindness fosters kindness. Cruelty begets cruelty. One must be able and willing to use force, tempered with intelligence, to prevent harm to the innocent. However, extraordinary understanding, self-discipline and courage are required to effectively prevent brutality, without being overwhelmed by the malice that motivated the brutality. Only a demonic, self-serving government would employ a "logic" or "science" to conceive that an "ultimate solution" to any problem is to murder and permanently 69 erase the memory of every artist, genius, skilled manager, and inventor, and cast them into a planetary prison together with political opponents, killers, thieves, perverts, and disabled beings of an entire galaxy! Once the IS-BEs expelled from the "Old Empire" arrived on Earth, they were given amnesia, and hypnotically

tricked into thinking that something else had happened to them. The next step was to implant the IS-BEs into biological bodies on Earth. The bodies became the human populations of "false civilizations" which were designed and installed in the minds of IS-BEs to look completely unlike the "Old Empire". All of the IS-BEs of India, Egypt, Babylon, Greece, Rome, and Medieval Europe were guided to pattern and build the cultural elements of these societies based on standard patterns developed by the IS-BEs of many earlier, similar civilizations on "Sun Type 12, Class 7" planets that have existed for trillions of years throughout the universe. In the earliest times the IS-BEs sent to prison Earth lived in India. They gradually spread into Mesopotamia, Egypt, Mesoamerica, Achaea, Greece, Rome, Medieval Europe, and to the New World. They were hypnotically "commanded" to follow the pattern of a given civilization by the "Old Empire" prison operators. This is an effective mechanism to disguise the actual time and location from the IS-BEs imprisoned on Earth. The languages, costumes and culture of each false civilization are intended to reinforce amnesia because they do not remind the IS-BEs on Earth of the original "Old Empire" planets from which they were deported. On the very far back-track of time these types of civilizations tended to repeat themselves over and over because the IS-BEs who created them become familiar with certain patterns and styles, and stayed with them. It is a lot of work to invent an entire civilization, complete with culture, architecture, language, customs, mathematics, moral values, and so forth. It is much easier to replicate a copy based on a familiar and successful pattern. 70 A "Sun Type 12, Class 7" planet is the designation given to a planet inhabited by carbon-oxygen based life forms. The class of the planet is based on the size and radiation intensity of the star, the distance of the planetary orbit from the star, and the size, density, gravity, and chemical composition of the planet. Likewise, flora and fauna are designated and identified according to the star type and class of planet they inhabit. On the average, the percentage of planets in the physical universe with a breathable atmosphere is relatively small. Most planets do not have an atmosphere upon which life-forms "feed", as on Earth, where the chemical composition of the atmosphere provides nutrition to plants, and other organisms, which in turn support other life forms. When the Domain Force brought the Vedic Hymns 98 (Footnote) to the Himalayas region 8,200 years ago, some human societies already existed. The Aryan people invaded and conquered India 99 (Footnote) , bringing the Vedic Hymns (Footnote) to the area. 100 The Vedas were learned by them, memorized and carried forward verbally for 7,000 years before being committed to written form. During that span of time one of the officers of The Domain Expeditionary Force was incarnated on Earth as "Vishnu" 101 (Footnote). He is described many times in the Rig-Veda. He is still considered to be a god by the Hindus. Vishnu fought in the religious wars against the "Old Empire" forces. He is a very able and aggressive IS-BE as well as a highly effective officer, who has since been reassigned to other duties in The Domain. This entire episode was orchestrated as an attack and revolt against the Egyptian pantheon installed by "Old Empire" administrators. The conflict was intended to help free humankind from implanted elements of the false civilization that focused attention on many "gods"

and superstitious ritual worship demanded by the priests who "managed" them. It is all part of the mental manipulation by the "Old Empire" to hide their criminal actions against the IS-BEs on Earth. 71 A priesthood, or prison guards, were used to help reinforce the idea that an individual, is only a biological body, and is not an Immortal Spiritual Being. The individual has no identity. The individuals have no past lives. 102 (Footnote) The individual has no power. Only the gods have power. And, the gods are a contrivance of the priests who intercede between men and the gods they serve. Men are slaves to the dictates of the priests who threaten eternal spiritual punishment if men do not obey them. What else would one expect on a prison planet where all prisoners have amnesia, and the priests themselves are prisoners? The intervention of The Domain Force on Earth has not been entirely successful due to the secret mind-control operation of the "Old Empire" that still continues to operate. A battle was waged between the "Old Empire" forces and The Domain through religious conquest. Between 1500 BCE and about 1200 BCE, The Domain Forces attempted to teach the concept of an individual, Immortal Spiritual Being to several influential beings on Earth. One such instance resulted in a very tragic misunderstanding, misinterpretation and misapplication of the concept. The idea was perverted and applied to mean that there is only one IS-BE, instead of the truth that everyone is an IS-BE! Obviously, this was a gross incomprehension and an utter unwillingness to take responsibility for one's own power. The "Old Empire" priests managed to corrupt the concept of individual immortality into the idea that there is only one, all-powerful IS-BE, and that no one else is or is allowed to be an IS-BE. Obviously, this is the work of the "Old Empire" amnesia operation. It is easy to teach this altered notion to beings who do not want to be responsible for their own lives. Slaves are such beings. As long as one chooses to assign responsibility for creation, existence and personal accountability for one's own thoughts and actions to others, one is a slave. As a result, the concept of a single monotheistic "god" resulted and was promoted by many self-proclaimed 72 prophets, such as the Jewish slave leader -- Moses -- 103 (Footnote) who grew up in the household of the Pharaoh Amenhotep III 104 (Footnote) and his son, Akhenaten 105 (Footnote) and his wife Nefertiti, 106 (Footnote) as well as his son Tutankhamen. 107 (Footnote) The attempt to teach certain beings on Earth the truth that they are, themselves, IS-BEs, was part of a plan to overthrow the fictional, metaphorical, anthropomorphic panoply of gods created by the "Old Empire" mystery cult called "The Brothers of The Serpent" 108 (Footnote) known in Egypt as the Priests of Amun. 109 (Footnote) They were a very ancient, secret society within the "Old Empire". The Pharaoh Akhenaten was not a very intelligent being, and was heavily influenced by his personal ambition for self-glorification. He altered the concept of the individual spiritual being and embodied the concept in the sun god, Aten. His pitiful existence was soon ended. He was assassinated by Maya and Parennefer, two of the Priests of Amun, or "Amen", which the Christians still say, who represented the interests of the "Old Empire" forces. The idea of "One God" was perpetuated by the Hebrew leader Moses 110 (Footnote) while he was in Egypt. He left Egypt with his adopted people, the Jewish slaves. While they were crossing the desert, Moses was

intercepted by an operative of the "Old Empire" near Mt. Sinai. Moses was tricked into believing that this operative was "the" One God through the use of hypnotic commands, as well as technical and aesthetic tricks which are commonly used by the "Old Empire" to trap IS-BEs. Thereafter, the Jewish slaves, who trusted the word of Moses implicitly, have worshiped a single god they call "Yaweh". 111 (Footnote). The name "Yaweh" means "anonymous", as the IS-BE who "worked with" Moses could not use an actual name or anything that would identify himself, or blow the cover of the amnesia / prison operation. The last thing the covert amnesia / hypnosis / prison system wants to do is to reveal themselves openly to the IS-BEs on Earth. They feel that this would restore the inmates memories! This is the reason that all traces of physical encounters between operatives of space civilizations and 73 humans is very carefully hidden, disguised, covered-up, denied or misdirected. This "Old Empire" operative contacted Moses on a desert mountain top and delivered the "Ten Hypnotic Commands" to him. These commands are very forcefully worded, and compel an IS-BE into utter subservience to the will of the operator. These hypnotic commands are still in effect and influence the thought patterns of millions of IS-BEs thousands of years later! Incidentally, we later discovered that the so-called "Yaweh" also wrote, programmed and encoded the text of the Torah, which when it is read literally, or in its decoded, 112 (Footnote) form, will provide a great deal more false information to those who read it. Ultimately, the Vedic Hymns became the source of nearly all of Eastern the religions and were the philosophical source of the ideas common to Buddha 113 (Footnote), Laozi 114 (Footnote), Zoroaster 115 (Footnote), and other philosophers. The civilizing influences of these philosophies eventually replaced the brutal idolatry of the "Old Empire" religions and were the true genesis of kindness and compassion. You asked me earlier why The Domain, and other space civilizations do not land on Earth or make their presence known. Land on Earth? Do you think we are crazy or want to be crazy? It takes a very brave IS-BE to come down through the atmosphere and land on Earth, because this is a prison planet, with a very uncontrolled, psychotic population. And, no IS-BE is entirely proof against the risk of entrapment, as with the members of The Domain Expeditionary Force who were captured in the Himalayas 8,200 years ago. No one knows what IS-BEs on Earth are going to do. We are not scheduled to invest the resources of The Domain to take total control of all the space surrounding the area at this time. This will occur in the not-to distant future -- about 5,000 Earth years -- according to the time schedule of The Domain. At this time we do not prevent transports from other planetary systems or galaxies from continuing to drop IS-BEs into the amnesia force screen area. Eventually, this will change. 74 In addition, Earth, inherently, is a highly unstable planet. It is not suitable for settlement or permanent habitation for any sustainable civilization. This is part of the reason why it is being used as a prison planet. No one else would seriously consider living here for a variety of simple and compelling reasons: 1) The continental land masses of Earth are floating on a sea of molten lava beneath the surface which causes the land masses to crack, crumble and drift continually. 116 (Footnote) 2) Because of the liquid nature of the core, the planet is largely volcanic

and subject to earthquakes and volcanic explosions. 3) The magnetic poles of the planet shift radically about once every 20,000 years. 117 (Footnote) This causes a greater or lesser degree of devastation as a result of tidal waves, and climatic changes. 4) Earth is very distant from the center of the galaxy and from any other significant galactic civilization. This isolation makes it unsuitable for use, except as a "pit stop" or jumping off point along the way between galaxies. The moon and asteroids are far more suitable for this purpose because they do not have any significant gravity. 5) Earth is a heavy gravity planet, with heavy metallic soil and a dense atmosphere. This makes it treacherous for navigational purposes. That fact that I am in this room, as the result of an in flight accident, in spite of the technology of my craft and my extensive expertise as a pilot, are proof of these facts. 6) There are approximately sixty billion Earth-like (Sun Type 12, Class 7) planets in the Milky Way galaxy alone, not to mention the vast expanses of The Domain, and the territories we will claim in the future. It is difficult to stretch our resources to do much more than a periodic reconnaissance of Earth. Especially when there are no immediate advantages to invest resources here. 7) On Earth most beings are not aware that they are IS BEs, or that there are spirits of any kind. Many other 75 beings are aware of this, but nearly everyone has a very limited understanding of themselves as an IS-BE. One of the reasons for this is that IS-BEs have been waging war against each other since the beginning of time. The purpose of these wars have always been to establish domination by one IS-BE or group of IS-BEs over another. Since an IS-BE cannot be "killed", the objective has been to capture and immobilize IS-BEs. This has been done in an nearly unlimited variety of ways. The most basic method to capture and immobilize an IS-BE is through the use of various kinds of "traps". IS-BE traps have been made and put in place by many invading societies, such as the one that established the "Old Empire", beginning about sixty-four trillion years ago. Traps are often set up in the "territory" of the IS-BEs being attacked. Usually a trap is set with the electronic wave of "beauty" to attract the interest and attention of the IS-BE. When the IS-BE moves toward the source of the aesthetic wave, such as a beautiful building or beautiful music, the trap is activated by the energy put out by the IS-BE. One of the most common trap mechanism uses the IS-BE's own thought energy output when the IS-BE tries to attack or fight back against the trap. The trap is activated and energized by the IS-BE's own thought energy. The harder the IS-BE fights against the trap, the more it pulls the IBS toward it and keeps them "stuck" in the trap. Throughout the entire history of this physical universe, vast areas of space have been taken over and colonized by IS-BE societies who invade and take over new areas of space in this fashion. In the past, these invasions have always shared common elements: 1) the overwhelming use of force of arms, usually with nuclear or electronic weapons. 2) mind control of the IS-BEs in the invaded area through the use of electroshock, drugs, hypnosis, erasure of memory and the implantation of false memory or false information intended to subjugate and enslave the local IS-BE population. 76 3) take over of natural resources by the invading IS BEs. 4) political, economic and social slavery of the local population. These activities continue in present time. All of the

IS-BEs on Earth have been members of one or more of these activities in the past, both as an invader, or as part of the population being invaded. There are no "saints" in this universe. Very few have avoided or been exempted from warfare between IS-BEs. IS-BEs on Earth are still the victims of this activity at this very moment. The between-lives amnesia administered to IS-BEs is one on the mechanisms of an elaborate system of "Old Empire" IS-BE traps, that prevent an IS-BE from escaping. This operation is managed by an illicit, renegade secret police 118 (Footnote) force of the "Old Empire", using false provocation operations to disguise their activities 119 (Footnote) in order to prevent detection by their own government, The Domain and by the victims of their activities. They are mind-control methods developed by government psychiatrists. 120 (Footnote) Earth is a "ghetto" 121 (Footnote) planet. It is the result of an intergalactic "Holocaust". 122 (Footnote) IS-BEs have been sentenced to Earth either because: 1) They are too viciously insane or perverse to function as part of any civilization, no matter how degraded or corrupt. 2) Or, they are a revolutionary threat to the social, economic and political caste system that has been so carefully built and brutally enforced in the "Old Empire". Biological bodies are specifically designed and designated as the lowest order of entity in the "Old Empire" caste system. When an IS-BE is sent to Earth, and then tricked or coerced into operating in a biological body, they are actually in a prison, inside a prison. 3) In an effort to permanently and irreversibly rid the "Old Empire" of such "untouchables", the eternal 77 identity, memory, and abilities of every IS-BE is forcefully erased. This "final solution" 123 (Footnote) was conceived and carried out by the psychopathic criminals who are controlled by the "Old Empire". The mass extermination of "untouchables" and prison camps created by Germany during World War II were recently revealed. Likewise, the IS-BEs of Earth are the victims of spiritual eradication and eternal slavery inside frail, biological bodies, inspired by the same kind of craven hatred in the "Old Empire". The kind and creative inmates of Earth are continuously tortured by butchers and lunatics who are controlled by the "Old Empire" prison operators. The so-called "civilizations" of Earth, from the age of useless pyramids to the age of nuclear holocaust, have been a colossal waste of natural resources, a perverted use of intelligence, and an overt oppression of the spiritual essence of every single IS-BE on the planet. If The Domain sent ships to every corner of the universe in search of "Hell", their quest could end on Earth. What greater brutality can be inflicted on anyone than to erase the spiritual awareness, identity, ability, and memory that is the essence of oneself? The Domain has, as yet, been unable to rescue the 3,000 IS-BEs of the Expeditionary Force Battalion either. They are forced to inhabit biological bodies on Earth. We have been able to recognize and track most of them for the past 8,000 years. However, our attempts to communicate with them are usually futile, as they are unable to remember their true identity. The majority of lost members of The Domain force have followed the general progression of Western civilization from India, into the Middle East, then to Chaldea, and Babylon, into Egypt, through Achaia, Greece, Rome, into Europe, to the Western Hemisphere, and then all around the world. The members of the lost Battalion and many other IS-BEs on Earth, could be valuable

citizens of The Domain, not including those who are vicious criminals or perverts. Unfortunately, there has been no workable method conceived to emancipate the IS-BEs from Earth. 78 Therefore, as a matter of common logic, as well as the official policy of The Domain, it is safer and more sensible to avoid contact with the IS-BE population of Earth until such time as the proper resources can be allocated to locate and destroy the "Old Empire" force screen and amnesia machinery and develop a therapy to restore the memory of an IS-BE.

"The actual history of Earth is very bizarre. It is so nonsensical that is it is incredible to anyone on Earth who attempts to investigate it. A myriad of vital information is missing from it. A huge conglomeration of non sequitur relics and mythology has been arbitrarily introduced into it. The volatile nature of the Earth itself cyclically covers, drowns, mixes and shreds physical evidence. These factors, combined with amnesia and post-hypnotic suggestions, false facades and covert manipulation make a reconstruction of the factual origins and history of Earth civilizations virtually indecipherable. Any 80 investigator, no matter how brilliant, is doomed to wallow in a quagmire of inconclusive assumptions, unworkable hypotheses, and perpetual mystery. Since The Domain does not suffer these afflictions, having the advantage of memory, longevity and an exterior point of view, I will add some clarification to your fragmentary knowledge of the history of Earth. These are some of the dates and events that are not mentioned in Earth history textbooks. These dates are significant because they provide some information concerning the influences of the "Old Empire" and of The Domain on Earth. Although I have attended several briefings by our mission control personnel on the general background of Earth within the past few hundred years, I will rely principally on data gathered from records captured after our invasion of the "Old Empire" planetary headquarters. Since that time The Domain Expeditionary Force has tracked the general progress of events on Earth. As I mentioned, in some cases The Domain has chosen to intervene in certain affairs on Earth in order to ensure the success of our long term expansion plans. Although The Domain has no interest in Earth, per se, or in the population of IS-BEs on this planet, it does serve our interests to ensure that the resources of Earth are not destroyed or spoiled. To that end, certain officers of The Domain have been sent to Earth on reconnaissance missions from time to time to gather information. However, the following dates and events have been extrapolated from the accumulated information in the data files of The Domain -- at least those that are accessible to me through the space station communications center. 208,000 BCE -- The establishment of the "Old Empire", whose headquarters were located near one of the "tail stars" in the Ursa Major (Big Dipper) Constellation 124 (Footnote) of this galaxy. The "Old Empire" invasion force conquered the area with nuclear weapons sometime earlier. After 81 the radioactivity 125 (Footnote) subsided and the clean-up and restoration were completed, it received the immigration of beings from another galaxy into this galaxy. Those beings set up a society that kept going until about 10,000 years ago when it was superseded by The Domain. Very recently Earth civilization has come to resemble aspects of that

civilization, now that it has fallen out of its immediate control. In particular, the appearance and technology of transportation such as planes, trains, ships, fire engines, and automobiles, as well as what you consider to be "modern" or "futuristic" architecture, which emulate the design of buildings in the major cities of the "Old Empire". Before 75,000 BCE -- The Domain records contain very little information about the civilizations on the continental land masses of Atlanta 126 (Footnote) and Lemur 127 (Footnote), except to note that they did coexist on Earth at more or less the same time. Apparently, both civilizations were founded by remnants of electronic, space opera cultures who fled from their native planetary systems to escape political or religious persecution. The Domain knows that a long-standing edict of the "Old Empire" prohibits unauthorized colonization of planets. Therefore, it is possible that their destruction was caused by police or military forces who pursued the colonists as criminals and destroyed them. Although this seems a likely supposition, no conclusive evidence exists that explains the complete destruction and disappearance of two entire electronic civilizations. Another possibility is that a massive submarine volcanic eruption in the region of Lake Toba, in Sumatra 128 (Footnote) and Mt. Krakatoa 129 (Footnote) in Java caused the destruction of Lemur. The flood waters caused by the eruption overwhelmed all the land masses, including the highest mountains. Survivors of the destruction of the civilization, the Lemurians, are the earliest ancestors of the Chinese. Australia and the ocean areas to the north were the center of the Lemurian civilization and are the source of Oriental races. Both civilizations possessed electronics, flight and similar technologies of space opera cultures. 82 Apparently, the volcanic eruption expelled such a significant mass of molten rock that the resulting vacuum beneath the crust of Earth caused great areas of the land masses to sink below the oceans. The continental areas occupied by both civilizations were covered with volcanic matter, and then submerged, leaving very little evidence that they ever existed except for legends of a global flood which prevail in every culture of the Earth, and for survivors who are the genus of oriental races and cultures. That kind of colossal volcanic explosion 130 (Footnote) fills the stratosphere with toxic gases which are carried around the whole planet. The usual refuse of these volcanic eruptions can easily cause a rain that lasts for "40 days and 40 nights" due to atmospheric pollution as well as an extensive period during which radiation from the sun is deflected back into space, and cause global cooling. 131 (Footnote) Certainly such an event would cause an ice age, extinctions of life forms and many other relatively long-term changes lasting thousands of years. Due to the myriad types of naturally occurring global cataclysmic events which are indigenous to Earth, it is not a suitable planet for habitation by IS-BEs. In addition there have been occasional global cataclysms caused by IS-BEs such as the one that destroyed the dinosaurs 132 (Footnote) more than 70 million years ago. That destruction was caused by intergalactic warfare during which time Earth, and many other neighboring moons and planets, were bombarded by atomic weapons. Atomic explosions cause atmospheric fallout much like that of volcanic eruptions. 133 (Footnote) Most of the planets in this sector of the galaxy have been uninhabitable deserts since then.

Earth is undesirable for many other reasons: heavy gravity and dense atmosphere, floods, earthquakes, volcanoes, polar shifts, continental drift, meteor impacts, atmospheric and climatic changes, to name a few. What kind of lasting civilization could any sophisticated culture propose to develop in such an environment? 83 In addition, Earth is a small planet of a "rim star" of a galaxy. This makes Earth very isolated geographically from the more concentrated planetary civilizations which exist toward the center of the galaxy. These obvious facts have made Earth suitable for use only as a zoological or botanical garden, or for it's current use as a prison -- but not much else. Before 30,000 BCE -- Earth started being used a dumping ground and prison for IS-BEs who were judged "untouchable", meaning criminal or non-conformists. IS-BEs were captured, encapsulated in electronic traps and transported to Earth from various parts of the "Old Empire". Underground "amnesia stations" were set up on Mars and on Earth in the Rwenzori Mountains 134 (Footnote) in Africa, in the Pyrenees Mountains 135 (Footnote) of Portugal, and in steppes of Mongolia. 136 (Footnote) These electronic monitoring points create force screens designed to detect and capture IS-BEs, when the IS-BE departs the body at death. IS-BEs are brainwashed using extreme electronic force in order to maintain Earth's population in state of perpetual amnesia. Further population controls are installed through the use of long range electronic thought control mechanisms. These stations are still in operation and they are extremely difficult to attack or destroy, even for The Domain, which will not maintain a significant military force in this area until a later date. The pyramid civilizations were intentionally created as part of the IS-BE prison system on Earth. The pyramid is alleged to be the symbol for "wisdom". However, the "wisdom" of the "Old Empire" on planet Earth is intended to operate as part of the elaborate amnesia "trap" consisting of MASS, MEANING and MYSTERY. These are opposite to the qualities of an Immortal Spiritual Being which have no mass, or meaning. An IS-BE "is" solely because it thinks that it "is". MASS represents the physical universe, including objects such as stars, planets, gases, liquids, energy particles and tea cups. The Pyramids were very, very solid objects, as were all of the structures created by the "Old Empire". Heavy, massive, dense, solid objects 84 create the illusion of eternity. Dead bodies wrapped in linen, soaked in resin, placed inside engraved golden coffins and entombed with Earthly possessions amid cryptic symbols create an illusion of eternal life. However, dense, heavy physical universe symbols are the exact opposite of an IS-BE. An IS-BE has no mass or time. Objects do not endure forever. An IS-BE "is" forever. MEANING: False meanings prevent knowledge of the truth. The pyramid cultures of Earth are a fabricated illusion. They are nothing more than "false civilizations" contrived by the "Old Empire" mystery cult called the Brothers of the Serpent. False meanings were invented to create the illusion of a false society to further reinforce the amnesia mechanism among the intimates in the Earth prison system. MYSTERY is built of lies and half-truths. Lies cause persistence because they alter facts which are comprised of exact dates, places and events. When truth is known, a lie no longer persists. If the exact truth is revealed, it is no longer a mystery. All of the pyramid civilizations of Earth were carefully contrived of layer upon layer of lies, skillfully

combined with a few truths. The priest cult of the "Old Empire" combined sophisticated mathematics and space opera technology, with theatrical metaphors and symbolism. All of these are complete fabrications of truth, baited with the allure of aesthetics and mystery. The intricate rituals, astronomical alignments, secret rites, massive monuments, marvelous architecture, artistically rendered hieroglyphs and man-animal "gods" were designed to create a unsolvable mystery for the IS BE prison population on Earth. The mystery diverts attention away from the truth that IS-BEs have been captured, given amnesia and imprisoned on a planet far, far away from their home. The truth is that every single IS-BE on Earth came to Earth from some other planetary system. Not one person on Earth is a "native" inhabitant. Human beings did not "evolve" on Earth. 85 In the past, Egyptian society was run by the prison administrators or priests, who, in turn, manipulated a Pharaoh, controlled the treasury and kept the inmate population enslaved physically and spiritually. In modern times, the priests have changed, but the function is the same. However, now the priest are prisoners too. Mystery reinforces the walls of the prison. The "Old Empire" feared that the IS-BEs on Earth might regain their memory. Therefore, one of the primary functions of The "Old Empire" priesthood is to prevent IS-BEs on Earth from remembering who they really are, how they came to Earth, where they came from. The "Old Empire" operators of the prison system, and their superiors, do not want IS-BEs to remember who murdered them, captured them, stole all of their possessions, sent them to Earth, gave them amnesia and condemned them to eternal imprisonment! Imagine what might happen if all of the inmates in the prison suddenly remembered that they have the right to be free! What if they suddenly realized that they have been falsely imprisoned and rise up as one against the guards? They are afraid to reveal anything that looks like the civilization of the inmates home planets. A body, a piece of clothing, a symbol, a space ship, an advanced electronics device, or any other remnant of civilization from a home planet could "remind" a being and rekindle his memory. Sophisticated technologies of entrapment and enslavement, which were developed over millions of years in the "Old Empire", have been applied to the IS BEs on Earth with the intention to create a false facade for the prison. These facades were installed on Earth in totality, all at once. Every piece is a fully integrated part of the prison system. This includes a religion of mumbo-jumbo double-speak. Every pyramid civilization uses this as part of a control mechanism to keep the population enslaved by force, by fear and by ignorance. The indecipherable muddle of irrelevant information, geometric designs, mathematical calculation, astronomical alignments, are 86 part of a false spirituality based on solid objects, rather than immortal spirits, in order to confuse and disorient the IS-BEs on Earth. When the body of a person died they were buried with their Earthly possessions, including their former body wrapped in linen, to sustain their "soul" or "Ka" after death. An IS-BE does not "have" as soul. An IS-BE is a soul. On the home planet of an IS-BE their material possessions were not lost, stolen or forgotten when the being died or left the body. An IS-BE could return and claim the possessions. However, if the IS-BE has amnesia, they will not remember that they had any possession. So, governments, insurance companies, bankers, family

members and other vultures can pick their possessions clean without fear of retribution from the deceased. 137 (Footnote) The only reason for these false meanings is to instill the idea that an IS-BE is NOT a spirit, but a physical object! This is a lie. It is a trap for an IS-BE. Countless people have spent endless hours attempting to solve the jig-saw puzzle of Egypt and other "Old Empire" civilizations. They are puzzles made of pieces that do not fit. A question states its own answer. What is the mystery of Egypt and other pyramid cultures? Mystery! circa 15,000 BCE -- The "Old Empire" forces supervised the construction of a hydraulic mining operations in the Andes Mountains in present day Bolivia near Lake Titicaca (Lake of Tin Stones) at Tiahuanaco 138 (Footnote) including construction of the massive stone complex of carved stone buildings known as Kalasasaya and its "Gate of the Sun" at an elevation of nearly 14,000 feet. 11,600 BCE -- The Polar Axis of Earth shifted 139 (Footnote) to a sea area. The last Ice Age came to an end abruptly as the polar ice caps melted and the level of the ocean rose to submerge large sections of the land masses of Earth. The last remaining vestiges of Atlantis and Lemuria were 87 covered by water. Massive extinctions of animals occurred in the Americas, Australia and the Artic Regions due to the shift of the poles. 10,450 BCE -- Plans were made by the "Old Empire" IS-BE called Thoth for construction of a Great Pyramid of Giza. The 4 "air shafts" of the pyramid point precisely to key stars in the "Old Empire" as seen from Giza in this year. The alignment of the Pyramids of Giza on the ground matches perfectly the alignment of the constellation of Orion as seen in the sky from Giza relative to the Nile as the earthly representation of the Milky Way in the sky. 140 (Footnote) 10,400 BCE -- According to the Earth historian, Herodotus, records from the ruined civilization of Atlantis, containing electronic technology and other technology of that society, were buried in a vault beneath the paws of The Sphinx. The Greek historian wrote that he was told this by some of his friends who were Priests of Anu, the Sumerian god, at the Egyptian city of Heliopolis. However, it is highly unlikely that any traces of an electronic civilization would be allowed to be left intact on Earth by the "old empire" prison system administrators. 141 (Footnote). 8,212 BCE -- The Veda or Vedic hymns are a set of religious hymns that were introduced into the societies of Earth. They came forward in spoken tradition, memorized, from generation to generation. "The Hymn to the Dawn Child'' includes an idea called the "cycle of the physical universe": the creation, growth, conservation, decay and death or destruction of energy and matter in a space. These cycles produce time. The same set of hymns describes the "theory of evolution". Here is a tremendous body of knowledge which contains a great deal of spiritual truth. Unfortunately, it has been incorrectly evaluated by humans and altered with lies and reversals of fact by priests which are a booby trap to prevent anyone from using the wisdom to discover a way to escape from the prison planet. 88 8,050 BCE -- Destruction of the "Old Empire" home planet government in this galaxy. This was the end of the "Old Empire" as a political entity in the galaxy. However, the vast size of the "Old Empire" will take many thousands of years for The Domain to conquer completely. The inertia of the political, economic and cultural systems of the "Old Empire" will remain in place for some

time to come. However, remnants of the "Old Empire" space fleet in the solar system of Earth were finally destroyed in 1,230 AD. In addition to operatives of the "Old Empire" who run the Earth prison operation, there were other beings from the "Old Empire" who came to Earth. Since Earth was no longer under the control of the "Old Empire" after their defeat by The Domain Forces, there was no police force to control military renegades, space pirates, miners, merchants and entrepreneurs who came to Earth to exploit the resources of the planet for personal gain, and many other nefarious reasons. For example, the history of Earth, according to the Jewish people, describes the "Nephilim". 142 (Footnote) Chapter 6 of The Book of Genesis, describes the origin of the "Nephilim" : "Now it came about, when men began to multiply on the face of the land, and daughters were born to them, that the "sons of God" saw that the daughters of men were beautiful; and they took wives for themselves, whomever they chose. The Nephilim were on the earth in those days, and also afterward, when the sons of God came in to the daughters of men, and they bore children to them. Those were the mighty men who were of old, men of renown." The ancient Jewish people who wrote the history book called the Old Testament were slaves, herders and gatherers. Any modern technology, even a simple flashlight, would seem astounding and miraculous to them. They attributed any unexplainable phenomenon or technology to the workings of a "god". Unfortunately, this behavior is universal among all IS-BEs who have been given amnesia, and cannot remember their own 89 experiences, training, technology, personality or identity. Obviously, if these were men, and they mated with Earth women, they were not "sons of god". They were IS-BEs who inhabited biological bodies in order to take advantage of the political situation in the "Old Empire", or simply to indulge in physical sensation. They set up small colonies of their own on Earth beyond the reach of the police and tax authorities. Coincidentally, one of the most serious crimes an IS-BE could commit in the "Old Empire" was to violate income tax regulations. Income taxes were used as a slavery mechanism and as a punishment in the "Old Empire". The slightest error in a tax report made an IS-BE "untouchable", followed by imprisonment on Earth. 6,750 BCE -- Other Pyramid civilizations were set up by the "Old Empire" on Earth. These were established in Babylon, Egypt, China and Mesoamerica. The Mesopotamian area provided service facilities, communication stations, space ports, and stone quarry operations for these false civilizations. Ptah was the name given to the first in a succession of administrators from the "Old Empire" who represented themselves to the Earth population as "divine" rulers. Ptah's importance may be understood when one learns that the word "Egypt" is a Greek corruption of the phrase "Het-Ka-Ptah," or "House of the Spirit of Ptah". Ptah, was nick-named "The Developer". He was a construction engineer. His high priest was given the title 'Great Leader of Craftsmen'. Ptah was also the god of reincarnation in Egypt. He originated the "opening of the mouth ceremony" which was performed by priests at funerals to "release souls" from their corpses. Of course, when the "souls" were released, they were captured, given amnesia, and returned to Earth again. The so-called "Devine" rulers who followed Ptah on Earth were called "Ntr", meaning "Guardians or

Watchers" by 90 the Egyptians. Their symbol was the Serpent, or Dragon which represented a secret priesthood of the "Old Empire" called the "Brothers of the Serpent". "Old Empire" engineers used cutting tools of highly concentrated light waves to quickly carve and excavate stone blocks. 143 (Footnote) They also used force fields and space craft to lift and transport blocks of stone weighing hundred or thousands of tons each. The placement on the ground of some of these structures will be found to have geodetic or astronomical significance relative to various stars in this galactic region. The buildings are crude and impractical, compared to building standards on most planets. As an engineer of The Domain, I can attest that make-shift structures like these would never pass inspection on a planet in The Domain. Stone blocks such as those used in the pyramid civilizations can still be seen, partially excavated, in the stone quarries in the Middle East 144 (Footnote) and elsewhere. Most of the structures were hastily built "props", much like the false facades of a western town on the set of a motion picture. They appear to be real, and to have some use or value however, they have no value. They have no useful purpose. The pyramids and all of the other stone monuments erected by the "Old Empire" could be called "mystery monuments". For what reason would anyone waste so many resources to construct so many useless buildings? To create a mysterious illusion. The fact of the matter is that each one of the "divine rulers" were IS-BEs who served as operatives of the "Old Empire". They were certainly not "divine", although they were IS-BEs. 6248 BCE -- The beginning of active warfare between The Domain Space Command and the surviving remnants of the "Old Empire" space fleet in this solar system that lasted nearly 7,500 years. It began when an installation was established in the Himalaya mountains by a battalion of the 3,000 officers and crew members of The Domain Expeditionary Force. The installation was not fortified 91 as The Domain was not aware that the "Old Empire" maintained Earth as a prison planet. The Domain installation was attacked and destroyed by space forces of the "Old Empire" who continued to operate in the solar system of Earth. IS-BEs of The Domain battalion were captured, taken to Mars, given amnesia, and sent back to Earth to inhabit human biological bodies. They are still on Earth. 5,965 BCE -- Investigations into the disappearance of Domain forces in this solar system led to the discovery of "Old Empire" bases on Mars and elsewhere. The Domain took over the planet Venus 145 (Footnote) as a defensive position against the space forces of the "Old Empire". The Domain Expeditionary Force also monitors life forms on Venus which has a very dense, hot and heavy atmosphere of sulfuric acid clouds. There are a few life forms on Earth that can endure an atmospheric environment like Venus. 146 (Footnote) The Domain also established secret installations or space stations in the Earth solar system. This solar system has a planet that is broken up -- the asteroid belt. 147 (Footnote) It provides a very useful low-gravity platform for take off and landing of space craft. It is used as a "galactic jump" between the Milky Way and adjoining galaxies. There aren't any planets at this end of the galaxy that can serve as a good galactic entering spot for incoming transport, and other ships. But this broken up planet makes a very ideal space station. As a result of our war against the "Old Empire", this area of the solar

system is now a valuable possession of The Domain. 3,450 - 3,100 BCE -- The intervention into the affairs on Earth by the "Old Empire" operatives or "divine gods" was disrupted at this time by The Domain Forces. They were forced to replace themselves with human rulers. The First Dynasty of human Pharaohs who united Upper and Lower Egypt began with the rule of a Pharaoh who, coincidentally, was named "MEN". He established the capital city called Men-Nefer, "The Beauty of Men" in Egypt. This started 92 the first succession of 10 human Pharaohs and a period of 350 years of chaos that followed in the administrative ranks of the "Old Empire". 3,200 BCE -- As I mentioned earlier, Earth was under attack between The Domain and the "Old Empire" forces during this period. Of course this does not make any sense to archaeologists or historians on Earth, because the Egyptian period is a space opera era period. Since Earth historians have amnesia, they assume that this was only a religious period. Further, because the technology and civilizations installed on Earth during this period were "pre packaged", they did not "evolve" on Earth. Of course, there is no evidence anywhere on Earth of an evolutionary transition which resulted in sophisticated mathematics, language, writing, religion, architecture, cultural traditions in Egypt or any of the pyramid civilizations. These cultures, complete with all of the details of racial body types, hair-styles, facial make up, rituals, moral codes and so forth, just "appeared" as complete integrated packages. The physical evidence suggests that all evidence of the intervention of The Domain or "Old Empire" Forces, or any other extraterrestrial activity, has been carefully "cleaned up", so as not to create suspicion. The "Old Empire" force does not want the IS-BEs of Earth to suspect that they have been captured, transplanted to Earth and brainwashed. So, Earth historians continue to assume that Egyptian priests were not supposed to have "ray guns" or other technology of the "Old Empire". And, they suppose that there was nothing going on, on Earth, except some priests walking around saying 'Amen', which the Christians still say. 3,172 BCE -- Layout of the astronomical grid that joins the key mining sites and astronomical buildings of 'the gods' in the Andes Mountains such as Tiahuanaco, 148 (Footnote) Cuzco, Quito, the cities of Ollantaytambu, 149 (Footnote) Machupiccu 150 93 (Footnote) and Pachacamac 151 (Footnote) for the mining of rare metals, including tin for use in making bronze. Metals were the property of "the gods", of course. A great variety of entrepreneurial mining was done on Earth at that time due to the war between the "Old Empire" force and The Domain. These miners did carve a few sculptures of themselves. They are seen wearing mining helmets. The Ponce stela sculpture in the sunken courtyard of the Kalasasaya temple is a crude rendering of a stone worker using an electronic, light-wave emitting stone cutter and carving tools, held in a holster. 152 (Footnote) The "Old Empire" has also maintained mining operations on planets throughout the galaxy for a very long time. The mineral resources of Earth are now a property of The Domain. 2,450 BCE -- The "great" pyramid 153 (Footnote) and complex of pyramids near Cairo were completed. An inscription created by the "Old Empire" administrators can be seen in the so called Pyramid texts. 154 (Footnote) The texts say that the pyramid was built under the direction of Thoth, Son of Ptah. Of course

there was never a King buried in the chamber, since the pyramids were never intended to be used as a burial chamber. The great pyramid was located precisely at the exact center of all of the land masses of Earth, 155 (Footnote) as viewed from space. Obviously such precise measurements require aerial perspective and a view of the land masses of Earth from space. Purely mathematical calculations of the geodetic center of the continents of Earth could not be made otherwise. Shafts were constructed inside the pyramid to align with the configuration of stars in the constellation of Orion, Canus Majora, and specifically Sirius. The shafts are also aligned to the Big Dipper, where the home planet of the "Old Empire" existed. Also, Ainitak, Alpha Draconis and Beta Ursa Minor. 156 (Footnote) These stars are each one of the key systems in the "Old Empire" from which IS-BEs were brought to Earth and dumped, as unwanted merchandise. 94 The configuration of all the pyramids of the Giza Plateau was intended to create a "mirror image", on Earth of the solar system and certain constellations within the "Old Empire". 2,181 BCE -- MIN, became the God of Fertility of Egypt. The IS-BE, also known as Pan, was also a Greek god. Min or Pan, was an IS-BE who somehow managed to escape from the "Old Empire" amnesia system. 157 (Footnote) 2,160 - 2040 BCE -- One of the results of the intensifying battle between The Domain Forces and the "Old Empire" forces was that the control of the "divine rulers", was broken at this time. They finally left Egypt and returned to the "heavens", so to speak, in defeat. Human beings took over the ruling role as Pharaohs. The first human pharaoh moved the Capital city of Egypt from Memphis to Heracleopolis. 158 (Footnote) 1,500 BCE -- This is the date for the destruction of Atlantis given by the Egyptian high-priests, Psenophis of Heliopolis, and Sonchis of Sais, to the Greek sage Solon. 159 (Footnote) The Priests of Anu recorded that the Mediterranean area was invaded by "Atlantean" people about this time. Of course, these people were not from the ancient continent of Atlanta, in the Atlantic Ocean, which existed more than 70,000 years earlier. These were refugees from the Minoan civilization on Crete escaping from the volcanic eruption and tidal waves of Mt. Thera that destroyed their civilization. Plato's references to Atlantis were borrowed from the writings of the Greek philosopher Solon, who was given the information by the Egyptian priest who called Atlantis "Kepchu", which also happens to be the Egyptian name for the people of Crete. Some of the survivors of the Minoan volcanic disaster asked Egypt for help, since they were the only other civilization with high culture in the Mediterranean area at the time. 160 (Footnote) 95 1351 BCE - 1337 BCE -- The Domain Expeditionary Force actively waged a war of religious conquest against the Egyptian mystery cult called the Priest of Amun, also known as the "Old Empire" Brothers of The Serpent. During this time the Pharaoh Akhenaten abolished the priesthood of Amun, and moved the capital of Egypt from Thebes to the new location at Amarna, at the exact geodetic center of Egypt 161 (Footnote). However, this plot to overthrow the "Old Empire" religious control was quickly spoiled. 1,193 BCE -- In the Near East and Achaea, the Greeks and Trojans fought for supremacy, which ended in the destruction of Troy as the finale of the Trojan War. 162 (Footnote) During this same time, war was being fought out in the space of the solar system between two forces

for control of the "space stations" surrounding Earth. That period of 300 years was a very violent resistance to The Domain Forces by the remnants of the "Old Empire" forces. It did not last long however, as it is futile to resist The Domain. 850 BCE -- Homer, the blind Greek poet, 163 (Footnote) wrote the stories 'the gods' as borrowed and modified from earlier sources in Vedic texts, Sumerian texts, Babylonian and Egyptian mythology. His poems, as well as many other "myths" of the ancient world are very accurate descriptions of the exploits of IS-BE's on Earth who were able to avoid the "Old Empire amnesia operation and operate without biological bodies. 700 BCE -- The Vedic Hymns were first translated in the Greek language. This was the beginning of a cultural revolution in Western civilization that transformed crude and brutal tribal cultures into democratic republics based on more reasonable conduct. 638 - 559 BCE -- Solon, a wise man from Greece, reported the existence of Atlantis. This was information he received from the 96 "Old Empire" high-priests, Psenophis of Heliopolis and Sonchis of Sais, with whom he studied in Egypt. 164 (Footnote) 630 BCE -- Zoroaster 165 (Footnote) created religious practices in Persia around an IS-BE called Ahura Mazda. 166 (Footnote) This was yet another of the growing number of "monotheistic" gods put in place by operatives of The Domain to displace a panoply of "Old Empire" gods. 604 BCE -- Laozi, a philosopher who wrote a small book called "The Way", 167 (Footnote) was an IS-BE of great wisdom, who overcame the effects of the "Old Empire" amnesia / hypnosis machinery and escaped from Earth. His understanding of the nature of an IS-BE must have been very good to accomplish this. According to the common legend, his last lifetime as a human was lived in a small village in China. He contemplated the essence of his own life. Like Guatama Siddhartha, he confronted his own thoughts, and past lives. In so doing, he recovered some of his own memory, ability and immortality. As an old man, he decided to leave the village and go to the forest to depart the body. The village gatekeeper stopped him and begged him to write down his personal philosophy before leaving. Here is a small piece of advice he gave about "the way" he rediscovered his own spirit: "He who looks will not see it; He who listens will not hear it; He who gropes will not grasp it. The formless nonentity, the motionless source of motion. The infinite essence of the spirit is the source of life. Spirit is self. Walls form and support a room, yet the space between them is most important. A pot is formed of clay, yet the space formed therein is most useful. Action is caused by the force of nothing on something, 97 just as the nothing of spirit is the source of all form. One suffers great afflictions because one has a body. Without a body what afflictions could one suffer? When one cares more for the body than for his own spirit, One becomes the body and looses the way of the spirit. The self, the spirit, creates illusion. The delusion of Man is that reality is not an illusion. One who creates illusions and makes them more real than reality, follows the path of the spirit and finds the way of heaven". 593 BCE -- The Genesis story written by the Jewish people describe "angels" or "sons of god" mating with women of Earth, who bore them children. These were probably renegades from the "Old Empire". They may also have been space pirates or merchants from a system outside the galaxy who came to steal mineral resources,

or smuggle drugs. The Domain has observed that there are many visitors to Earth from neighboring planets and galaxies, but they rarely stop and live here. What kind of beings would live on a prison planet if they were not forced to do so? The same book also reports the story of a human named Ezekiel who witnessed a spacecraft or aircraft landing near Chebar River in Chaldea. His description of the craft uses very archaic language, technically, but is nevertheless, quite an accurate description of an "Old Empire" saucer or scout craft. It is similar to the sighting of "vimanas" by the people in the foothills of the Himalayas. Their Genesis story also mentions that "Yahweh" designed biological bodies to live for 120 years on Earth. Biological bodies on most "Sun Type 12, Class 7" planets are usually engineered to last for an average of about 150 years. Human bodies on Earth last only about one half as long. We suspect this is because the prison administrators have altered the biological material of human bodies on Earth to die more frequently so that the 98 IS-BEs who inhabit them will recycle through the amnesia mechanism more frequently. 168 (Footnote) It should be noted that much of the "Old Testament" was written during the captivity of the Jews who were enslaved in Babylon, which was very heavily controlled by priests of the "Old Empire". The book introduces a false sense of time and a false concept of the origin of the creation. The serpent is the symbol of the "Old Empire". It appears in the beginning of their creation story, or as the Greeks say, "Genesis", and causes the spiritual destruction of the first human beings, who are metaphorically represented by Adam and Eve. The Old Testament, clearly influenced by the "Old Empire" Forces, gives a detailed description of the IS BEs being induced into biological bodies on Earth. This book also describes many of the "Old Empire" brainwashing activities, including the installation of false memories, lies, superstitions, commands to "forget" and all manner of tricks and traps designed to keep IS-BEs on Earth. Most importantly, it destroys the awareness that humans are Immortal Spiritual Beings. 580 BCE -- The Oracle at Delphi was one temple in a network of many oracle temples. Each temple was a communication center. The "Old Empire" priests designated a local "god" for each temple. Each of the temples in this network were located at precisely 5 degrees of latitude intervals from the capital city of Thebes throughout the Mediterranean area as far north as the Baltic Sea. The shrines served, among other things, as a grid, housing electronic beacons, later called "Omphalus Stones". 169 (Footnote) The grid arrangement of Oracle sites can only be seen from miles above the Earth. The original network of electronic communications beacons were disabled when the priesthood was dispersed, and were replaced by carved stones. The symbol of the "Old Empire" priesthood is a Python, dragon or serpent. It was called the "earth-dragon" at 99 Delphi, which is always represented in sculpture and vase-paintings as a serpent. In Greek mythology the guardian of the Omphalus Stone at the temple at Delphi was an oracle whose name was Python, the serpent. 170 (Footnote) She was an IS-BE, who was conquered by a "god" named Apollo. He buried her under the Omphalos stone. This is a case of one "god" setting up his temple on the grave of another. This is a very accurate euphemism for The Domain Force that detected and disabled the "Old Empire" temple network on Earth. It was one of the fatal blows to the "Old

Empire" Force in the solar system of Earth. 559 BCE -- The Commanding Officer of The Domain Battalion who was lost in 5,965 BCE was detected and located by a search party sent to Earth from The Domain Expeditionary Force. He was incarnated as Cyrus II of Persia during this time. 171 (Footnote) A unique system of organization was used by Cyrus II 172 (Footnote) and the members of that Battalion who followed him from India through his progression of human lives on Earth. In part, it enabled them to build the largest empire in the history of the Earth to that date. The Domain Search Party who located him traveled around the Earth searching for the lost Battalion for several thousand years. The party consisted of 900 officers of The Domain, divided into teams of 300 each. One team searched the land, another team search the oceans and the third team searched the space surrounding Earth. There are many reports made in various human civilizations concerning their activities, which humans did not understand, of course. The Domain Search Party devised a wide variety of electronic detection devices needed to track the electronic signature or wavelength of each of the missing members of the Battalion. Some were used in space, others on land, and special devices were invented to detect IS-BEs under water. One of these electronic detection devices is referred to as a "tree of life". 173 (Footnote) The device is literally a 100 tool designed to detect the presence of life, which is an IS-BE. This was a large electronic screen generator designed to permeate wide areas. To the ancient humans on Earth it resembled a sort of tree, since is consists of an interwoven lattice of electronic field generators and receivers. The electronic field detects the presence of IS-BEs, whether the IS-BE is occupying a body, or if they are outside a body. A portable version of this detection device was carried by each of the members of The Domain Search Party. Stone carvings in Sumeria show winged beings using pinecone-shaped instruments to scan the bodies of human beings. They are also shown carrying the power unit for the scanner which are depicted as stylized baskets or water buckets, being carried by eagle-headed, winged beings. 174 (Footnote) Members of the aerial unit of The Domain Search Party, led by Ahura Mazda, were often called "winged gods" in human interpretations. Throughout the Persian civilization there are a great many stone relief carving that depict winged space craft, that they called a "faravahar". 175 (Footnote) Members of the Aquatic Unit of The Domain Search Party were called "Oannes" by local humans. 176 (Footnote) Stone carvings of the so-called Oannes are shown wearing silver diving suits. They lived in the sea and appeared to the human population to be men dressed to look like fish. Some members of the lost Battalion were found in the oceans inhabiting the bodies of dolphins or whales. 177 (Footnote) On land, The Domain Search Party members were referred to as "Annunaki" 178 (Footnote) by the Sumerians, and "Nephilim", in the Bible. Of course, their true mission and activities were never disclosed to homo sapiens. Their activities have been purposefully disguised. Therefore, the human stories and legends about the Annunaki, and the other members of The Domain Search Party have not been understood and were badly misinterpreted. In the absence of complete and accurate data, anyone observing a phenomenon will assume or hypothesize

explanations in an attempt to make sense of the data. 101 Therefore, although mythology and history may be based on factual events, they are likewise full of misunderstood and misinterpreted evaluations of the data, and embellished with assumptions, theories and hypotheses which are false. The space unit of The Domain Expeditionary Force are shown flying in a "Winged-Disc". 179 (Footnote) This is an allusion to the spiritual power of the IS-BEs, as well as to the space craft used by The Domain Search Party. The Commander of the lost Battalion, as Cyrus II, was an IS-BE who was regarded as a messiah on Earth by both the Jews, and the Muslims. In less than 50 years he established a highly ethical, and humanitarian philosophy which pervaded all of Western Civilization. 180 (Footnote) His territorial conquests, organization of people and monumental building projects were unprecedented before or since. Such sweeping accomplishments in a short period of time could only have been achieved by a leader and a team of trained officers, pilots, engineers and crew members of a unit of The Domain, acting as a team, who had been trained and worked together for thousands of years. Although we have discovered the location of many of the IS-BEs in the lost Battalion, The Domain has been unable to restore their memory and return them to active duty as yet. Of course we cannot transport IS-BEs who are inhabiting biological bodies to the space stations of The Domain since there is no oxygen in our space craft. Also we do not maintain life support facilities for biological entities there. Our only hope has been to locate and rekindle the awareness, memory and identity of the IS BEs of the Lost Battalion. One day they will be capable of rejoining us. 200 BCE -- The last remnant of the "Old Empire" pyramid civilization is at "Teotihuacán" 181 (Footnote). The Aztec name means “place of the gods” or “where men were transformed into gods”. Like the astronomical 102 configuration of the Giza pyramids in Egypt, the entire complex is a precise scale-model of the solar system that accurately reflects the orbital distances of the inner planets, the asteroid belt, Jupiter, Saturn, Uranus, Neptune, and Pluto. Since the planet Uranus had only been "discovered" with modern Earth telescopes in 1787, and Pluto not until 1930, it is apparent that the builders had information from "other sources". A common element of the Pyramid Civilizations around the Earth is the constant use of the image of the snake, dragon, or serpent. This is because the beings who planted these civilizations here want to create an illusion that the "gods" are reptilian. This is also a part of an illusion designed to perpetuate amnesia. The beings who placed false civilizations on Earth are IS BEs, just like you. Many of the biological bodies inhabited by IS-BEs in the "Old Empire" are very similar in appearance to the bodies on Earth. The "gods" are not reptiles, although they often behave like snakes. 1,034 - 1,124 AD -- The entire Arab world was enslaved by one man: Hasan ibn-al-Sabbah 182 (Footnote) , the Old Man of the Mountain. He established the Hashshashin who operated a part of Mohammedanism which controlled by terror and fear much of India, Asia Minor and most of the Mediterranean Basin. They became a priesthood that used an extremely effective mind-control mechanism and extortion tool that enabled the "Assassins" to control the civilized world for several hundred years. Their method was simple. Young men were kidnapped and knocked unconscious with hashish. They were

taken to a garden filled with beautiful black-eyed houris in a harem decorated with rivers of milk and honey. The young men were told that they were in paradise. They were promised they could return and live there forever if they sacrificed themselves as an assassin of whomever they were commanded to kill. The men were knocked out again, and shoved out into the world to carry out the assassination mission. Meanwhile, the Old Man of the Mountain sent a messenger to the caliph or, whatever wealthy ruler from whom they demanded payment, demanding camel-loads of gold, spices, 103 incense or other valuables. If payment did not arrive on time, the assassin would be sent to kill the offending party. There was virtually no defense against the unknown assailant who wanted nothing more than to carry out his mission, be killed and return to "heaven". This is a very crude example of how simple and effective a brainwashing and mind-control operation can be when it is used skillfully, and forcefully. It is a small scale demonstration of how the amnesia mind-control operation is used against the entire IS-BE population of Earth by the "Old Empire". 1119 AD -- The Knights Templar 183 (Footnote) was established as a Christian military unit after the First Crusade but quickly transformed into the basis for the international banking system to accumulate money to conduct the agenda of operatives for vestiges of the "Old Empire" on Earth. 1135 - 1230 AD -- The Domain Expeditionary Force completed the annihilation of the remaining remnants of the "Old Empire" space fleet operating in the solar system around Earth. Unfortunately, their long established thought control operation remains largely intact. 1307 AD -- The Knights Templar was disbanded by King Philip IV of France, who was deeply in debt to the Order. 184 (Footnote) He pressured Pope Clement V to condemn the Order's members, have them arrested, tortured them into giving false confessions, and burned them at the stake in an effort to erase his debt by seizing all of their wealth. A majority of the Templars fled to Switzerland where they established an international banking system 185 (Footnote) which secretly controls the economy of Earth. "Old Empire" operatives act as an unseen influence on international bankers. 186 (Footnote) The banks are operated covertly as a on-combatant provocateur to covertly promote and finance weapons and warfare between the nations of Earth. Warfare is an internal mechanism of 104 control over the inmate population. 187 (Footnote) The purpose of the senseless genocide and carnage of wars financed by these international banks is to prevent the IS-BEs of Earth from sharing open communication, cooperate together in activities that might enable IS BEs to prosper, become enlightened, and escape their imprisonment."

"The origins of this universe and life on Earth, as discussed in the textbooks I have read, are very inaccurate. Since you serve your government as a medical personnel, your duties require that you understand biological entities. So, I am sure that you will appreciate the value of the material I will share with you today. The text of books I have been given on subjects related to the function of life forms contain information that is based on false memories, inaccurate observation, missing data, unproven theories, and superstition. For example, just a few hundred years ago your physicians practiced bloodletting 188 (Footnote) as a means to release

supposed ill-humors from the body in an attempt to relieve or heal a wide variety of physical and mental afflictions. Although this has been corrected somewhat, many barbarisms are still being practiced in the name of medical science. In addition to the application of incorrect theories concerning biological engineering, many primary errors that Earth scientists make are the result of an ignorance of the nature and relative importance of IS BEs as the source of energy and intelligence which animate every life form. Although it is not a priority of The Domain to intervene in the affairs of Earth, The Domain Communications Office has authorized me to provide you with some information in an effort to provide a more accurate and complete understanding of these things and thereby enable you to discover more effective solutions to the unique problems you face on Earth. The correct information about the origins of biological entities has been erased from your mind, as well as from 107 the minds of your mentors. In order to help you regain your own memory, I will share with you some factual material concerning the origin of biological entities. I asked Airl if she was referring to the subject of evolution. Airl said, "No, not exactly". You will find "evolution" mentioned in the ancient Vedic Hymns. 189 (Footnote) The Vedic texts are like folk tales or common wisdoms and superstitions gathered throughout the systems of The Domain. These were compiled into verses, like a book of rhymes. For every statement of truth, the verses contain as many half-truths, reversals of truth and fanciful imaginings, blended without qualification or distinction. The theory of evolution assumes that the motivational source of energy that animates every life form does not exist. It assumes that an inanimate object or a chemical concoction can suddenly become "alive" or animate accidentally or spontaneously. Or, perhaps an electrical discharge into a pool of chemical ooze will magically spawn a self-animated entity. There is no evidence whatsoever that this is true, simply because it is not true. Dr. Frankenstein did not really resurrect the dead into a marauding monster, except in the imagination of the IS-BE who wrote a fictitious story one dark and stormy night. 190 (Footnote) No Western scientist ever stopped to consider who, what, where, when or how this animation happens. Complete ignorance, denial or unawareness of the spirit as the source of life force required to animate inanimate objects or cellular tissue is the sole cause of failures in Western medicine. In addition, evolution does not occur accidentally. It requires a great deal of technology which must be manipulated under the careful supervision of IS-BEs. Very simple examples are seen in the modification of farm animals or in the breeding of dogs. However, the notion that human biological organisms evolved naturally from earlier ape-like forms is incorrect. No physical evidence will ever be uncovered to substantiate the notion that modern humanoid bodies evolved on this planet. 108 The reason is simple: the idea that human bodies evolved spontaneously from the primordial ooze of chemical interactivity in the dim mists of time is nothing more than a hypnotic lie instilled by the amnesia operation to prevent your recollection of the true origins of Mankind. Factually, humanoid bodies have existed in various forms throughout the universe for trillions of years. This was compounded by the fact that The Vedic Hymns were brought to Earth 8,200 years ago by The Domain Expeditionary Force.

While they were based in the Himalaya Mountains, the verses were taught to some of the local humans who memorized them. However, I should note that this was not an authorized activity for the crew of The Domain installation, although I am sure it seemed like an innocent diversion for them at the time. The verses were passed along verbally from one generation to the next for thousands of years in the foothills and eventually spread throughout India. No one in The Domain credits any of the material in the Vedic Hymns as factual material, any more than you would use "Grimm's Fairy Tales" 191 (Footnote) as a guide for rearing children. However, on a planet where all of the IS-BEs have had their memory erased, one can understand how these tales and fantasies could be taken seriously. Unfortunately, the humans who learned the Vedic verses passed them along to others saying that they came from "the gods". Eventually, the content of the verses were adopted verbatim as "truth". The euphemistic and metaphorical content of the Veda were accepted and practiced as dogmatic fact. The philosophy of the verses were ignored and the verses became the genesis of nearly every religion practice on the planet, especially Hinduism. 192 (Footnote) As an officer, pilot and engineer of The Domain, I must always assume a very pragmatic point of view. I could not be effective or accomplish my missions if I were to use philosophical dogma or rhetoric as my operations manual. Therefore, our discussion of history is based on actual events that occurred long before any IS-BEs arrived on Earth, and long before the "Old Empire" came 109 into power. I can relate part of this history from personal experience: Many billions of years ago I was a member of a very large biological laboratory in a galaxy far from this one. It was called the "Arcadia Regeneration Company". 193 (Footnote) I was a biological engineer working with a large staff of technicians. It was our business to manufacture and supply new life forms to uninhabited planets. There were millions of star systems with millions of inhabitable planets in the region at that time. There were many other biological laboratory companies at that time also. Each of them specialized in producing different kinds of life forms, depending on the "class" of the planet being populated. Over a long span of time these laboratories developed a vast catalogue of species throughout the galaxies. The majority of basic genetic material is common to all species of life. 194 (Footnote) Therefore, most of their work was concerned with manipulating alterations of the basic genetic pattern to produce variations of life forms that would be suitable inhabitants for various planetary classes. The "Arcadia Regeneration Company" specialized in mammals for forested areas and birds for tropical regions. Our marketing staff negotiated contracts with various planetary governments and independent buyers from all over the universe. The technicians created animals that were compatible with the variations in climate, atmospheric and terrestrial density and chemical content. In addition we were paid to integrate our specimens with biological organisms engineered by other companies already living on a planet. In order to do this our staff was in communication with other companies who created life forms. There were industry trade shows, publications and a variety of other information supplied through an association that coordinated related projects. As you can imagine, our research required a great deal of interstellar travel to

conduct planetary surveys. This is when I learned my skills as a pilot. The data gathered was accumulated in huge computer databases and evaluated by biological engineers. 195 (Footnote) 110 A computer is an electronic device that serves as an artificial "brain" or complex calculating machine. It is capable of storing information, making computations, solving problems and performing mechanical functions. In most of the galactic systems of the universe, very large computers are commonly used to run the routine administration, mechanical services and maintenance activities of an entire planet or planetary system. Based on the survey data gathered, designs and artistic renderings were made for new creatures. Some designs were sold to the highest bidder. Other life forms were created to meet the customized requests of our clients. The design and technical specifications were passed along an assembly line through a series of cellular, chemical, and mechanical engineers to solve the various problems. It was their job to integrate all of the component factors into a workable, functional and aesthetic finished product. Prototypes of these creatures were then produced and tested in artificially created environments. Imperfections were worked out, modifications made and eventually the new life form was "endowed" or "animated" with a life force or spiritual energy before being introduced into the actual planetary environment for final testing. After a new life form was introduced, we monitored the interaction of these biological organisms with the planetary environment and with other indigenous life-forms. Conflicts resulting from the interaction between incompatible organisms were resolved through negotiation between ourselves and other companies. The negotiations usually resulted in compromises requiring further modification to our creatures or to theirs or both. This is part of a science or art you call "Eugenics". 196 (Footnote) In some cases changes were made in the planetary environment, but not often, as planet building is much more complex than making changes to an individual life form. 111 Coincidentally, a friend and engineer with whom I used to work with at the Arcadia Regeneration Company -- a long time after I left the company -- told me that one of the projects they contracted to do, in more recent times, was to deliver life forms to Earth to replenish them after a war in this region of the galaxy devastated most of the life on the planets in this region of space. This would have been about seventy million years ago. The skill required to modify the planet into an ecologically interactive environment that will support billions of diverse species was an immense undertaking. Specialized consultants from nearly every biotechnology company in the galaxy were brought in to help with the project. What you see now on Earth is the huge variety of life forms left behind. Your scientists believe that the fallacious "theory of evolution" is an explanation for the existence of all the life forms here. The truth is that all life forms on this and any other planet in this universe were created by companies like ours. How else can you explain the millions of completely divergent and unrelated species of life on the land and in the oceans of this planet? How else can you explain the source of spiritual animation which defines every living creature? To say it is the work of "god", is far too broad. Every IS-BE has many names and faces in many times and places. Every IS-BE is a god. When they inhabit a physical object they are the

source of Life. For example, there are millions of species 197 (Footnote) of insects. About 350,000 of these are species of beetles. 198 (Footnote) There may be as many as 100 million species of life forms on Earth at any given time. In addition, there are many times more extinct species of life on Earth than there are living life forms. Some of these will be rediscovered in the fossil or geological records of Earth. The current "theory of evolution" of life forms on Earth does not consider the phenomena of biological diversity. Evolution by natural selection is science fiction. One species does not accidentally, or randomly evolve to become another species, as the Earth textbooks indicate, 112 without manipulation of genetic material by an IS-BE. 199 (Footnote) A simple example of IS-BE intervention is the selective breeding of a species 200 (Footnote) on Earth. Within the past few hundred years several hundred dog breeds and hundreds of varieties of pigeons and dozens of Koi fish have been "evolved" in just a few years, beginning with only one original breed. Without active intervention by IS-BEs, biological organisms rarely change. The development of an animal like the 'duck-billed platypus' required a lot of very clever engineering to combine the body of a beaver with the bill of a duck and make a mammal that lays eggs. Undoubtedly, some wealthy client placed a "special order" for it as a gift or curious amusement. I am sure the laboratory of some biotechnical company worked on it for years to make it a self-replicating life form! The notion that the creation of any life form could have resulted from a coincidental chemical interaction moldering up from some primordial ooze is beyond absurdity! Factually, some organisms on Earth, such as Proteobacteria, 201 (Footnote) are modifications of a Phylum 202 (Footnote) designed primarily for "Star Type 3, Class C" planets. In other words, The Domain designation for a planet with an anaerobic atmosphere nearest a large, intensely hot blue star, 203 (Footnote) such as those in the constellation of Orion's Belt in this galaxy. Creating life forms is very complex, highly technical work for IS-BEs who specialize in this field. Genetic anomalies are very baffling to Earth biologists who have had their memory erased. Unfortunately, the false memory implantations of the "Old Empire" prevent Earth scientists from observing obvious anomalies. The greatest technical challenge of biological organisms was the invention of self-regeneration, or sexual reproduction. It was invented as the solution to the problem of having to continually manufacture replacement creatures for those that had been destroyed and eaten by other creatures. Planetary governments did not want to keep buying replacement animals. 113 The idea was contrived trillions of years ago as a result of a conference held to resolve arguments between the disputing vested interests within the biotechnology industry. The infamous "Council of Yuhmi-Krum" was responsible for coordinating creature production. 204 (Footnote) A compromise was reached, after certain members of the Council were strategically bribed or murdered, to author an agreement which resulted in the biological phenomenon which we now call the "food chain". The idea that a creature would need to consume the body of another life form as an energy source was offered as a solution by one of the biggest companies in the biological engineering business. They specialized in creating insects and flowering plants. The connection between the two is obvious.

Nearly every flowering plant requires a symbiotic relationship with an insect in order to propagate. The reason is obvious: both the bugs and the flowers were created by the same company. Unfortunately, this same company also had a division which created parasites and bacteria. The name of the company roughly translated into English would be "Bugs & Blossoms" . They wanted to justify the fact that the only valid purpose of the parasitic creatures they manufactured was to aid the decomposition of organic material. There was a very limited market for such creatures at that time. In order to expand their business they hired a big public relations firm and a powerful group of political lobbyists to glorify the idea that life forms should feed from other life forms. They invented a "scientific theory" to use as a promotion gimmick. The theory was that all creatures needed to have "food" as a source of energy. Before that, none of the life forms being manufactured required any external energy. Animals did not eat other animals for food, but consumed sunlight, minerals or vegetable matter only. Of course, "Bugs & Blossoms" went into the business of designing and manufacturing carnivores. Before long, so many animals were being eaten as food that the problem of replenishing them became very difficult. As a 114 'solution', "Bugs & Blossoms" proposed, with the help of some strategically placed bribes in high places, that other companies begin using 'sexual reproduction' as the basis for replenishing life-forms. "Bugs & Blossoms" was the first company to develop blueprints for sexual reproduction, of course. As expected, the patent licenses for the biological engineering process 205 (Footnote) required to implant stimulus-response mating, cellular division and pre programmed growth patterns for self-regenerating animals were owned by "Bugs & Blossoms" too. Through the next few million years laws were passed that required that these programs be purchased by the other biological technology companies. These were required to be imprinted into the cellular design of all existing life-forms. It became a very expensive undertaking for other biotechnology companies to make such an awkward, and impractical idea work. This led to the corruption and downfall of the entire industry. Ultimately, the 'food and sex' idea completely ruined the bio-technology industry, including "Bugs & Blossoms". The entire industry faded away as the market for manufactured life forms disappeared. Consequently, when a species became extinct, there is no way to replace them because the technology of creating new life forms has been lost. Obviously, none of this technology was ever known on Earth, and probably never will be. There are still computer files on some planets far from here which record the procedures for biological engineering. Possibly the laboratories and computers still exist somewhere. However, there is no one around doing anything with them. Therefore, you can understand why it is so important for The Domain to protect the dwindling number of creatures left on Earth. The core concept behind 'sexual reproduction' technology was the invention of a chemical/electronic interaction called "cyclical stimulus-response generators". 206 (Footnote) This is an programmed genetic mechanism which causes a seemingly spontaneous, recurring impulse to reproduce. The same technique was later adapted and applied to biological flesh bodies, including Homo Sapiens. 115 Another important mechanism used in the reproductive process, especially with

Homo Sapiens type bodies, is the implantation of a "chemical-electrical trigger" mechanism 207 (Footnote) in the body. The "trigger" which attracts IS-BEs to inhabit a human body, or any kind of "flesh body", is the use of an artificially imprinted electronic wave which uses "aesthetic pain" to attract the IS-BE. Every trap in the universe, including those used to capture IS-BEs who remain free, is "baited" with an aesthetic electronic wave. The sensations caused by the aesthetic wavelength are more attractive to an IS-BE than any other sensation. When the electronic waves of pain and beauty are combined together, this causes the IS-BE to get "stuck" in the body. The "reproductive trigger" used for lesser life forms, such as cattle and other mammals, is triggered by chemicals emitted from the scent glands, combined with reproductive chemical-electrical impulses stimulated by testosterone, or estrogen. 208 (Footnote) These are also interactive with nutrition levels which cause the life form to reproduce more when deprived of food sources. Starvation promoted reproductive activity as a means of perpetuating survival through future regenerations, when the current organism fails to survive. These fundamental principles have been applied throughout all species of life. The debilitating impact and addiction to the "sexual aesthetic-pain" electronic wave 209 (Footnote) is the reason that the ruling class of The Domain do not inhabit flesh bodies. This is also why officers of The Domain Forces only use doll bodies. This wave has proven to be the most effective trapping device ever created in the history of the universe, as far as I know. The civilizations of The Domain and the "Old Empire" both depend on this device to "recruit" and maintain a work force of IS-BEs who inhabit flesh bodies on planets and installations. These IS-BEs are the "working class" beings who do all of the slavish, manual, undesirable work on planets. 116 As I mentioned, there is a very highly regimented and fixed hierarchy or "class system" for all IS-BEs throughout the "Old Empire", and The Domain, as follows: The highest class are "free" IS-BEs. That is, they are not restricted to the use of any type of body and may come and go at will, provided that they do not destroy or interfere with the social, economic or political structure. Below this class are many strata of "limited" IS-BEs who may or may not use a body from time to time. Limitations are imposed on each IS-BE regarding range of power, ability and mobility they can exercise. Below these are the "doll body" classes, to which I belong. Nearly all space officers and crew members of space craft are required to travel through intergalactic space. Therefore, they are each equipped with a body manufactured from light weight, durable materials. Various body types have been designed to facilitate specialized functions. Some bodies have accessories, such as interchangeable tools or apparatus for activities such as maintenance, mining, chemical management, navigation, and so forth. There are many gradations of this body type which also serve as an "insignia" of rank. Below these are the soldier class. The soldiers are equipped with a myriad of weapons, and specialized armaments designed to detect, combat and overwhelm any imaginable foe. Some soldiers are issued mechanical bodies. Most soldiers are merely remote controlled robots with no class designation. The lower classes are limited to "flesh bodies". Of course, it is not possible for these to travel through space for obvious reasons.

Fundamentally, flesh bodies are far too fragile to endure the stresses of gravity, temperature extremes, radiation exposure, atmospheric chemicals and the vacuum of space. There are also the obvious logistical inconveniences of food, defecation, sleep, atmospheric elements, and air pressure required by flesh bodies, that doll bodies do not require. Most flesh bodies will suffocate in only a few minutes without a specific combination of atmospheric chemicals. 117 After 2 or 3 days the bacteria which live internally and externally on the body cause severe odors to be emitted. Odors of any kind are not acceptable in a space vessel. Flesh can tolerate only a very limited spectrum of temperatures, whereas in space the contrast of temperatures may vary hundreds of degrees within seconds. Of course flesh bodies are utterly useless for military duty. A single shot from a hand-held, electronic blast gun instantly turns a flesh body into a noxious vapor cloud. IS-BEs who inhabit flesh bodies have lost much of their native ability and power. Although it is theoretically possible to regain or rehabilitate these abilities, no practical means has been discovered or authorized by The Domain. Even though space craft of The Domain travel trillions of "light years" in a single day, 210 (Footnote) the time required to traverse the space between galaxies is significant, not to mention the length of time to complete just one set of mission orders, which may require thousands of years. Biological flesh bodies live for only a very short time -- only 60 to 150 years, at most -- whereas doll bodies can be re-used and repaired almost indefinitely. The first development of biological bodies began in this universe about seventy-four trillion years ago. It rapidly became a fad for IS-BEs to create and inhabit various types of bodies for an assortment of nefarious reasons: especially for amusement, this is to experience various physical sensations vicariously through the body. Since that time there has been a continuing "de evolution" in the relationship of IS-BEs to bodies. As IS-BEs continued to play around with these bodies, certain tricks were introduced to cause IS-BEs to get trapped inside a body so they were unable to leave again. This was done primarily by making bodies that appeared sturdy, but were actually very fragile. An IS-BE, using their natural power to create energy, accidentally injured a body when contacting it. The IS-BE was 118 remorseful about having injured this fragile body. The next time they encountered a body they began to be "careful" with them. In so doing, the IS-BE would withdraw or minimize their own power so as not to injure the body. A very long and treacherous history of this kind of trickery, combined with similar misadventures eventually resulted in a large number of IS-BEs becoming permanently trapped in bodies. Of course this became a profitable enterprise for some IS-BEs who took advantage of this situation to make slaves of others. The resulting enslavement progressed over trillions of years, and continues today. Ultimately the dwindling ability of IS-BEs to maintain a personal state of operational freedom and ability to create energy resulted in the vast and carefully guarded hierarchy or class system. Using bodies as a symbol of each class is used throughout the "Old Empire", as well as The Domain. The vast majority of IS-BEs throughout the galaxies of this universe inhabit some form of flesh body. The structure, appearance, operation and habitat of these bodies vary according to the gravity, atmosphere, and climatic conditions of the planet they inhabit. Body types

are predetermined largely by the type and size of the star around which the planet revolves, the distance from the star, the geological, as well as the atmospheric components of the planet. On the average, these stars and planets fall into gradients of classification which are fairly standard throughout the universe. For example, Earth is identified, roughly, as a "Sun Type 12, Class 7 planet". That is a heavy gravity, nitrogen/oxygen atmosphere planet, 211 (Footnote) with biological life-forms, in proximity to a single, yellow, medium-size, low radiation sun or "Type 12 star". The proper designations are difficult to translate accurately due to the extreme limitations of astronomical nomenclature in the English language. There are as many varieties of life forms as there are grains of sands on the beach. You can imagine how many different creatures and types of bodies have been manufactured by the millions of companies such as "Bugs 119 & Blossoms" for all of the myriad planetary systems during the course of seventy-four trillion years!"

"Today Airl told me about some very technical things. I took a few notes to remind myself, so I can repeat what she said as closely as possible. She began with an analogy about scientific knowledge: Can you imagine how much progress could have been made on Earth if people like Johannes Gutenberg 212 (Footnote), Sir Isaac Newton, Benjamin Franklin, George Washington Carver, 213 (Footnote) Nicola Tesla, Jonas Salk, 214 (Footnote) and Richard Trevithick,215 (Footnote) and many thousands of similar geniuses and inventors were living today? Image what technical accomplishments might have been developed if men like these never died? What if they were never given amnesia and made to forget everything they knew? What if they continued to learn and work forever? What level of technology and civilization could be attained if Immortal Spiritual Beings like these were 121 allowed to continue to create -- in the same place and at the same time -- for billions or trillions of years? Essentially, The Domain is one civilization that has existed for trillions of years with relatively uninterrupted progress. Knowledge has been accumulated, refined, and improved upon in nearly every field of study imaginable -- and beyond imagining. Originally, the interaction of IS-BE illusions or inventions created the very fabric of the physical universe -- the microcosm and the macrocosm. Every single particle of the universe has been imagined and brought into existence by an IS-BE. Everything created from an idea -- a thought with no weight or size or location in space. Every speck of dust in space, from the size of the tiniest subatomic particle, to the size of a sun or a magelantic cloud the size of many galaxies, was created from the nothingness of a thought. Even the tiniest, individual cells were contrived and coordinated to enable a microbial entity to sense, and navigate through infinitesimally small spaces. These also came from an idea thought up by an IS-BE. You, and every IS-BE on Earth, have participated in the creation of this universe. Even though you are now confined to a fragile body made of flesh; you live for only 65 short rotations of your planet around a star; you have been given overwhelming electric shock treatments to wipe out your memory; you must learn everything all over again each lifetime; in spite of all these circumstances, you are who you are and will always be. And, deep down, you still

know that your are and what you know. You are still the essence of you. How else can one understand the child prodigy? An IS-BE who plays concertos on a piano at three years of age, without formal training? Impossible, if they did not simply remember what they have already learned from thousands of lives spent in front of a keyboard in times untold, or on planets far away. They may not know how they know. They just know. Humankind has developed more technology in the past 100 years than in the previous 2,000 years. Why? The 122 answer is simple: the influence of the "Old Empire" over the mind and over the affairs of Mankind has been diminished by The Domain. A renaissance 216 (Footnote) of invention on Earth began in 1,250 AD with the destruction of the "Old Empire" space fleet in the solar system. During the next 500 years, Earth may have the potential to regain autonomy and independence, but only to the degree that humankind can apply the concentrated genius of the IS-BEs on Earth to solve the amnesia problem. However, on a cautionary note, the inventive potential of the IS-BEs who have been exiled to this planet is severely compromised by the criminal elements of the Earth population. Specifically, politicians, war mongers and irresponsible physicists who create unlimited weapons such as nuclear bombs, chemicals, diseases and social chaos. These have the potential to extinguish all life forms on Earth, forever. Even the relatively small explosions that were tested and used in the past two years on Earth have the potential to destroy all of life, if deployed in sufficient quantities. Larger weapons could consume all of the oxygen in the global atmosphere in a single explosion! 217 (Footnote) Therefore, the most fundamental problems that must be solved in order to ensure that Earth will not be destroyed by technology, are social and humanitarian problems. The greatest scientific minds of Earth, in spite of mathematical or mechanical genius, have never addressed these problems. Therefore, do not look to scientists to save Earth or the future of humanity. Any so-called "science" that is solely based on the paradigm 218 (Footnote) that existence is composed only of energy and objects moving through space is not a science. Such beings utterly ignore the creative spark originated by an individual IS-BE and collective work of the IS-BEs who continually create the physical universe and all universes. Every science will remain relatively ineffective or destructive to the degree that it omits or devaluates the relative importance of the spiritual spark that ignites all of creation and life. 123 Unfortunately this ignorance has been very carefully and forcefully instilled in human beings by the "Old Empire" to ensure that IS-BEs on this planet will not be able to recover their innate ability to create space, energy, matter and time, or any other component part of universes. As long as awareness of the immortal, powerful, spiritual "self" is ignored, humanity will remain imprisoned until the day of its own, self destruction and oblivion. Do not rely on the dogma of physical sciences to master the fundamental forces of creation any more than you would trust the chanted incantations of an incense burning shaman. The net result of both of these is entrapment and oblivion. Scientists pretend to observe, but they only suppose that they see, and call it fact. Like the blind man, a scientist can not learn to see until he realizes that he is blind. The "facts" of Earth science do not include the source of creation. They include only the result, or

byproducts of creation. The "facts" of science to not include any memory of the nearly infinite past experience of existence. The essence of creation and existence cannot be found through the lens of a microscope or telescope or by any other measurement of the physical universe. One cannot comprehend the perfume of a flower or the pain felt by an abandoned lover with meters and calipers. Everything you will ever know about the creative force and ability of a god can be found within you -- an Immortal Spiritual Being. How can a blind man teach others to see the nearly infinite gradients that comprise the spectrum of light? The notion that one can understand the universe without understanding the nature of an IS-BE is as absurd as conceiving that an artist is a speck of paint on his own canvas. Or, that the lace on a ballet shoe is the choreographer's vision, or the grace of a dancer, or the electric excitement of opening night. Study of the spirit has been booby-trapped by the thought control operation through religious superstitions they instill in the minds of men. Conversely, the study of the spirit and the mind have 124 been prohibited by science which eliminates anything that is not measurable in the physical universe. Science is the religion of matter. It worships matter. The paradigm of science is that creation is all, and the creator is nothing. Religion says the creator is all, and the creation is nothing. These two extremes are the bars of a prison cell. They prevent observation of all phenomenon as an interactive whole. Study of creation without knowing the IS-BE, the source of creation, is futile. When you sail to the edge of a universe conceived by science, you fall off the end into an abyss of dark, dispassionate space and lifeless, unrelenting force. On Earth, you have been convinced that the oceans of the mind and spirit are filled with gruesome, ghoulish monsters that will eat you alive if you dare to venture beyond the breakwater of superstition. The vested interest of the "Old Empire" prison system is to prevent you from looking at your own soul. They fear that you will see in your own memory the slave masters who keep you imprisoned. The prison is made of shadows in your mind. The shadows are made of lies, and pain, and loss, and fear. The true geniuses of civilization are those IS-BEs who will enable other IS-BEs to recover their memory and regain self-realization and self-determination. This issue is not solved through enforcing moral regulation on behavior, or through the control of beings through mystery, faith, drugs, guns or any other dogma of a slave society. And certainly not through the use of electric shock and hypnotic commands! The survival of Earth and every being on it depends on the ability to recover the memory of skills you have accrued through the trillenia; to recover the essence of yourself. Such an art, science, or technology has never been conceived in the "Old Empire". Otherwise, they would not have resorted to the "solution" that brought you to your current condition on Earth. Neither has such technology ever been developed by The Domain. Until recently, the necessity of rehabilitating an IS-BE with amnesia has not been needed. Therefore, 125 no one has ever worked on solving this problem. So far, unfortunately, The Domain has no solution to offer. A few officers of The Domain Expeditionary Force have taken it upon themselves to provide technology to Earth during their off duty time. These officers leave their "doll" at the space station and, as an IS-BE, assume or take over a biological body

on Earth. In some cases an officer can remain on duty while they inhabit and control other bodies at the same time. This is a very dangerous and adventurous undertaking. It requires a very able IS-BE to accomplish such a mission, and return to base successfully. One officer who did this recently, while continuing to attend to his official duties, was known on Earth as the electronics inventor, Nicola Tesla. 219 (Footnote) It is my intention, although is not a part of my mission orders, to assist you in your efforts to advance scientific and humanitarian progress on Earth. My intention is to help other IS-BEs to help themselves. In order to solve the amnesia problem on Earth you will need much more advanced technology, as well as social stability to allow enough time for research and development of techniques to free the IS-BE from the body, and to free the mind of the IS-BE from amnesia. Although The Domain has a long term interest in maintaining Earth as a useful planet, it has no particular interest in the human population of Earth, other than its own personnel here. We are interested in preventing destruction, as well as accelerating the development of technologies that will sustain the infrastructures of the global biosphere, hydrosphere and atmosphere. To this end, you will discover, on very careful and thorough examination, that my space craft contains a wide assortment of technology that does not yet exist on Earth. If you distribute pieces of this craft to various scientists for study, they will be able to reverse engineer 220 (Footnote) some of the technology to the extent that Earth has the raw materials required to replicate these components. 126 Some features will be indecipherable. Other features cannot be duplicated as Earth does not have the natural resources required to replicate them. This is especially true of the metals used to construct the craft. Not only do these metals not exist on Earth, the refining process required to produce these metals took billions of years to develop. It is also true of the navigation system which requires an IS-BE whose own personal wavelength has been specifically attuned to the "neural network" of the craft. 221 (Footnote) The pilot of the craft must possess a very high order of energy volition, discipline, training and intelligence to manipulate such a craft. IS-BEs on Earth are incapable of this expertise because it requires the use of an artificial body specifically created for this purpose. Certain individual Earth scientists, some of whom are among the most brilliant minds in the history of the universe, will have their memory of this technology jogged when they examine the craft components. Just as some of the scientists and physicists on Earth have been able to "remember" how to recreate electric generators, internal combustion and steam locomotion, refrigeration, aircraft, antibiotics, and other tools of your civilization, they will also rediscover other vital technology in my craft. The following are the specific systems embodied in my craft that contain useful components: 1) There is an assortment of microscopic wiring or fibers 222 (Footnote) within the walls of the craft that control such things as communications, information storage, computer function, and automatic navigation. 2) The same wiring is used for light, sub-light and ultra-light spectrum detection and vision. 223 (Footnote) 3) The fabrics of the interior of the craft 224 (Footnote) are far superior to any on Earth at this time and have hundreds or thousands of applications. 4) You will also find mechanisms for creating,

amplifying and channeling light particles or waves as a form of energy. 225 (Footnote) 127 As an officer, pilot and engineer of The Domain Forces, I am not at liberty to discuss or convey the detailed operation or construction of the craft in any way, other than what I have just disclosed. However, I am confident that there are many competent engineers on Earth who will develop useful technology with these resources. I am providing these details to you in the hope that the greater good of The Domain will be served."

Immortal Spiritual Beings, which I refer to as "IS-BEs", for the sake of convenience, are the source and creators of illusions. Each one, individually and collectively, in their original, unfettered state of being, are an eternal, all-powerful, all-knowing entity. IS-BEs create space by imagining a location. The intervening distance between themselves and the imagined location is what we call space. An IS-BE can perceive the space and objects created by other IS-BEs. IS-BEs are not physical universe entities. They are a source of energy and illusion. IS-BEs are not located in space or time, but can create space, place particles in space, create energy, and shape particles into various forms, cause the motion of forms, and animate forms. Any form that is animated by an IS-BE is called life. An IS-BE can decide to agree that they are located in space or time, and that they, themselves, are an object, or any other manner of illusion created by themselves or another or other IS-BEs. The disadvantage of creating an illusion is that an illusion must be continually created. If not continually created, it disappears. Continual creation 129 of an illusion requires incessant attention to every detail of the illusion in order to sustain it. A common denominator of IS-BEs seems to be the desire to avoid boredom. A spirit only, without interaction with other IS-BEs, and the unpredictable motion, drama, and unanticipated intentions and illusions being created by other IS-BEs, is easily bored. What if you could imagine anything, perceive everything, and cause anything to happen, at will? What if you couldn't do anything else? What if you always knew the outcome of every game and the answer to every question? Would you get bored? The entire back time track of IS-BEs is immeasurable, nearly infinite in terms of physical universe time. There is no measurable "beginning" or "end" for an IS BE. They simply exist in an everlasting now. Another common denominator of IS-BEs is that admiration of one's own illusions by others is very desirable. If the desired admiration is not forthcoming, the IS-BE will keep creating the illusion in an attempt to get admiration. One could say that the entire physical universe is made of unadmired illusions. The origins of this universe began with the creation of individual, illusionary spaces. These were the "home" of the IS-BE. Sometimes a universe is a collaborative creation of illusions by two or more IS-BEs. A proliferation of IS-BEs, and the universes they create, sometimes collide or become commingled or merge to an extent that many IS-BEs shared in the co-creation of a universe. IS-BEs diminish their ability in order to have a game to play. IS-BEs think that any game is better than no game. They will endure pain, suffering, stupidity, privation, and all manner of unnecessary and undesirable conditions, just to play a game. Pretending that one does not know all, see all and cause all, is a way to create the

conditions necessary for playing a game: unknowns, freedoms, barriers and/or opponents and goals. Ultimately, playing a game solves the problem of boredom. 130 In this fashion, all of the space, galaxies, suns, planets, and physical phenomena of this universe, including life forms, places, and events that have been created by IS-BEs and sustained by mutual agreement that these things exist. There are as many universes as there are IS-BEs to imagine, build and perceive them, each existing concurrently within its own continuum. 226 (Footnote) Each universe is created using its own, unique set of rules, as imagined, altered, preserved or destroyed by one or more IS-BEs who created it. Time, energy, objects and space, as defined in terms of the physical universe, may or may not exist in other universes. The Domain exists in such a universe, as well as in the physical universe. One of the rules of the physical universe is that energy can be created, but not destroyed. So, the universe will keep expanding as long as IS-BEs keep adding more new energy into it. It is nearly infinite. It is like an automobile assembly line that never stops running and none of the cars are ever destroyed. Every IS-BE is basically good. Therefore, an IS-BE does not enjoy doing things to other IS-BEs which they themselves do not want to experience. For an IS-BE there is no inherent standard for what is good or bad, right or wrong, ugly or beautiful. These ideas are all based on the opinion of each individual IS-BE. The closest concept that human beings have to describe an IS-BE is as a god: all-knowing, all-powerful, infinite. So, how does a god stop being a god? They pretend NOT to know. How can you play a game of "hide and seek" if you always know where the other person is hiding? You pretend NOT to know where the other players are hiding, so you can go off to "seek" them. This is how games are created. You have forgotten that you are just "pretending". In so doing, IS-BEs become entrapped and enslaved inside a maze of their own devising. How does one create a cage, lock one's own self inside the cage, throw away the key, and forget there is a key or a cage, and forget there is an "inside" or "outside", and even forget there is a self? Create the illusion 131 that there is no illusion: the entire universe is real, and that no other universe exists or can be created. On Earth, the propaganda taught and agreed upon is that the gods are responsible, and that human beings are not responsible. You are taught that only a god can create universes. So, the responsibility for every action is assigned to another IS-BE or god. Never oneself. No human being ever assumes personal responsibility for the fact that they, themselves -- individually and collectively -- are gods. This fact alone is the source of entrapment for every IS-BE.

" 'It is my personal belief that the truth should not be sacrificed on the altar of political, religious or economic expediency. 227 (Footnote) As an officer, pilot and engineer of The Domain it is my duty to protect the greater good of The Domain and its possessions. However, we cannot defend ourselves against forces of which we are not aware. The isolation of Earth from the rest of civilization prevents me from discussing many subjects with you at this time. Security and protocol prevent me from revealing any but the broadest, general statements about the plans and activities of The Domain. However, I can give you some information that you may

find useful. I must return to my assigned duties on the "space station" now. I have provided as much help as I feel ethically able to offer, given the requirements and constraints of my duties as an officer, pilot and engineer of The Domain Forces. Therefore, I will depart, as an IS-BE, from Earth within the next 24 hours.' 133 (EDITOR'S NOTE: The following several paragraphs appear to be personal comments made by Matilda to the stenographer regarding her interview with Airl.) What this means is that Airl will leave her "doll" with us, as her craft is damaged beyond repair. We can examine, dissect and study the body at our leisure. She does not have any further use for it, nor does she have any personal feelings or attachments to it as others are readily available for her use. Airl does not recommend that there is any technology in the body that Earth scientists will find useful, however. The technology of the body is simple, yet vastly beyond the reckoning of our current ability to analyze or reverse engineer any facet of it. The body is neither biological or mechanical, but a unique fabrication a materials and ancient technologies not found on any Earth-type planet. As Airl mentioned previously, a very rigid and distinctive hierarchy of social, economic and cultural classes exists throughout The Domain which has remained unvaried and inviolate for many millennia. The body type and function assigned to an IS-BE officer varies specifically according to the rank, class, longevity, training level, command level, service record, and meritorious citations earned by each individual IS-BE, as with any other military insignia. The body used by Airl is specifically designed for an officer, pilot and engineer of her rank and class. The bodies of her companions, which were destroyed in the crash, were not of the same rank or class, but of a junior rank. Therefore, the appearance, features, composition and functionality of those bodies were specialized, and limited to the requirements of their duties. The junior officers whose bodies were damaged in the crash have left their bodies and returned to their duties on the space station. The damage suffered by their bodies was due primarily to the fact that they were officers of lower rank. They used bodies which were partially biological and therefore far less durable and resilient than hers. 134 (EDITOR'S NOTE: At this point, the transcript appears to resume with statements made by Airl.) Although The Domain will not hesitate to destroy any active vestiges of the "Old Empire" operations where ever they are discovered this is not our primary mission in this galaxy. I am sure that the "Old Empire" mind control mechanisms can be deactivated and destroyed eventually. However, it is not possible to estimate how long this make take, as we do not understand the extent of this operation at this time. We do know that the "Old Empire" force screen is vast enough to cover this end of the galaxy, at least. We also know from experience that each force generator and trapping device is very difficult to detect, locate and destroy. Also, it is not the current mission of The Domain Expeditionary Force to commit resources to this endeavor. The eventual destruction of these devices may make it possible for your memory to be restored, simply by virtue of not having it erased after each lifetime. Fortunately, the memory of an IS-BE cannot be permanently erased. There are many other active space civilizations who maintain various nefarious operations in this area, not the least of which is dumping unwanted IS-BEs on Earth. None of

these craft are hostile or in violent opposition to The Domain Forces. They know better than to challenge us! For the most part The Domain ignores Earth and its inhabitants, except to ensure that the resources of the planet itself are not permanently spoiled. This sector of the galaxy was annexed by The Domain and is the possession of The Domain, to do with or dispose of as it deems best. The moon of Earth and the asteroid belt have become a permanent base of operations for The Domain Forces. Needless to say, any attempt by humans or others to interfere in the activities of The Domain in this solar system -- even if it were possible, which it definitely is not -- will be terminated swiftly. This is not a 135 serious concern, as I mentioned earlier, since homo sapiens cannot operate in open space. Of course we will continue with the next steps of The Domain Expansion Plan which has remained on schedule for billions of years. Over the next 5,000 years there will be increasing traffic and activity of The Domain Forces as we progress toward the center of this galaxy and beyond to spread our civilization through the universe. If humanity is to survive, it must cooperate to find effective solutions to the difficult conditions of your existence on Earth. Humanity must rise above its human form and discover where they are, and that they are IS BEs, and who they really are as IS-BEs in order to transcend the notion that they are merely biological bodies. Once these realizations have been made, it may be possible to escape your current imprisonment. Otherwise, there will be no future for the IS-BEs on Earth. Although there are no active battles or war being waged between The Domain and the "Old Empire", there still exists the covert actions of the "Old Empire" taken against Earth through their thought control operation. When one knows that these activities exist, the effects can be observed clearly. The most obvious examples of these actions against the human race can be seen as incidents of sudden, inexplicable behavior. A very recent instance of this occurred in the United States military just before the Japanese attack on Pearl Harbor. 228 (Footnote) Just three days before the attack, someone in authority ordered all the ships in Pearl Harbor to go into port and secure for inspection. The ships were ordered to take all the ammunition out of their magazines, and store it below. On the afternoon before attack all of the admirals and generals were attending parties, even though two Japanese aircraft carriers were discovered standing right off Pearl Harbor. The obvious action to take would have been to contact Pearl Harbor by telephone to warn them of the danger of a fight starting and to put the ammunition back and order the ships to get out of port into open sea. 136 About six hours before the Japanese attack began, a U.S. navy ship sank a small Japanese submarine right outside the harbor. Instead of contacting Pearl Harbor by telephone to report the incident, a warning message was put into top secret code, which took about two hours to encode, and then it took another two hours to decode. The word of warning to Pearl Harbor did not arrive until 10:00 AM Pearl Harbor time, Sunday -- two hours after the Japanese attack destroyed the U.S. fleet. How do things like this happen? If the men who were responsible for these obviously disastrous errors were stood up and asked bluntly to justify their actions and intentions you would find out that they were quite sincere in their jobs. Ordinarily, they do the very best they can do for people and nations.

However, all of a sudden, from some completely unknown and undetectable source enters these wild, unexplainable situations that just 'can't exist'. The "Old Empire" thought control operation is run by a small group of old "baboons" with very small minds. They are playing insidious games with no purpose and no goal other than to control and destroy IS-BEs who could otherwise manage themselves perfectly well, if left alone. These types of artificially created incidents are being forced upon the human race by the operators of the mind control prison system. The prison guards will always promote and support oppressive or totalitarian activities of IS-BEs on Earth. Why not keep the inmates fighting between themselves? Why not empower madmen to run the governments of Earth? The men who run the criminal governments of Earth mirror the commands given them by covert thought-controllers of the "Old Empire". The human race will continue to shadow box with this for a long time -- as long as it remains the human race. Until then, the IS-BEs on Earth will continue to live a series of consecutive lives, over and over and over. The same IS-BEs who lived during the rise and fall of civilizations in India, China, Mesepotamia, Greece, and Rome are inhabiting bodies in the present time in America, France, Russia, Africa, and around the world. 137 In between each lifetime an IS-BE is sent back again, to begin all over, as though the new life was the only life they had ever lived. They begin anew in pain, in misery, and mystery. Some IS-BEs have been transported to Earth more recently than others. Some IS-BEs have been on Earth only a few hundred years, so they have no personal experiences with the earlier civilizations of Earth. They have no experiences of having lived on Earth, so could not remember a previous existence here, even if their memory was restored. They might, however, remember lives they lived elsewhere on other planets and in other times. Others have been here since the first days of Lemuria. In any case, the IS-BEs of Earth are here forever, until they can break the amnesia cycle, conquer the electronic traps set up by their captors and free themselves. Because The Domain has three thousand of their own IS BEs in captivity on Earth also, they have an interest in solving this problem. This problem has never been encountered or effectively solved before in the universe, as far as they know. They will continue their efforts to free those IS-BEs from Earth, where and when it is possible, but it will require time to develop an unprecedented technology and the diligence to do so.' (EDITOR'S NOTE: The following statement is a comment by Matilda.) I think it is Airl's sincere desire, as one IS-BE to another, that the rest of our eternity will be as pleasant as possible."
